Abstract

This study aims to determine the level of achievement motivation of women's volleyball academy athletes in Buleleng during the Covid-19 pandemic. This research is quantitative descriptive research with the type of survey research, with data collection using instruments that have been prepared at the planning stage. The research population was all female athletes at the junior level of the Buleleng Volleyball Academy with a total of 32 people. Instrument data were collected using a non-test method, namely a questionnaire consisting of 10 statements for the desire to practice, 10 statements for practicing hobbies, 13 statements for professional trainers and 5 statements for training programs. The data analysis technique used in this research is quantitative descriptive analysis with percentages. This shows that achievement motivation has a positive impact on the training of athletes at the Buleleng volleyball academy. The sample is 32 people who take part in volleyball training at the Buleleng volleyball academy. The results are (1) Intrinsic motivation related to the desire to practice in producing achievements in Buleleng volleyball academy athletes during the covid-19 pandemic in the category rating scale is stated to be very high. (2) Intrinsic motivation related to the hobby of practicing in generating achievements for athletes at the Buleleng volleyball academy during the covid-19 pandemic in the category rating scale is stated to be very high. (3) Extrinsic motivation related to professional coaches in producing achievements in Buleleng volleyball academy athletes during the covid-19 pandemic in the category rating scale is stated to be very high. (4) Extrinsic motivation related to the training program in generating achievements for the athletes of the Buleleng volleyball academy during the covid-19 pandemic in the category rating scale was stated to be very high. Suggestions from researchers for athletes to be able to increase motivation in doing volleyball exercises either at the training ground or at home during this covid-19 pandemic, to improve the ability to play volleyball in order to achieve future achievements.
