ABSTRAK

Penelitian ini bertujuan untuk mengembangkan media pembelajaran teknik dasar *passing* Sepakbola berbentuk video. Jenis penelitian ini adalah penelitian pengembangan. dengan model *analysis, design, development, implementation* dan *evaluation* (ADDIE). Media yang dikembangkan berupa video tutorial Teknik Dasar *Passing* Sepakbola. Tanggapan ahli isi menunjukkan bahwa video tutorial teknik dasar *passing* sepakbola menggunakan kaki bagian dalam memperoleh persentase 92% berada pada kualifikasi sangat baik. Tanggapan ahli media pembelajaran memperoleh persentase 94% berada pada kualifikasi sangat baik. Tanggapan ahli desain pembelajaran memperoleh persentase 78% berada pada kualifikasi baik, Tanggapan praktisi lapangan memperoleh persentase 92% berada pada kualifikasi sangat baik. Dapat disimpulkan bahwa media pembelajaran sepakbola layak digunakan dalam mata pelajaran pendidikan jasmani olahraga dan kesehatan.

Kata-kata kunci: Media Video, *Passing* Sepakbola, ADDIE.

***DEVELOPMENT OF FOOTBALL LEARNING MEDIA
FOR VII CLASS STUDENTS IN
KUBUTAMBAHAN STATE 4 SMP***

ABSTRACT

The purpose of this research is to develop learning media for basic football passing techniques in the form of video. This type of research is development research. with the ADDIE model, namely: analysis, design, development, implementation and evaluation. Qualitative descriptive analysis techniques and quantitative descriptive analysis are data analysis techniques used. The learning media developed is in the form of video tutorials which contain material about understanding the basic techniques of football passing and how to perform basic football passing techniques with the inside of the foot. Based on the responses of subject matter experts, it showed that the video tutorial on the basic techniques of inner foot football passing obtained a percentage of 92% in very good qualifications. The response of learning media experts obtained a percentage of 94% being in very good qualifications. The response of learning design experts obtained a percentage of 78% being in good qualifications, Responses from field practitioners obtained a percentage of 92% being in very good qualifications. It can be concluded that football learning media is suitable for use in sports and health physical education subjects.

Key words: Media Video, Football Passing, ADDIE.
