ABSTRAK

Penelitian ini bertujuan untuk mengetahui hubungan motivasi berprestasi dengan hasil belajar bola voli pada peserta didik kelas XI SMA Negeri 1 Tembuku tahun pelajaran 2021/2022. Penelitian ini menggunakan metode korelasional. Populasi penelitian adalah seluruh peserta didik kelas XI di SMAN 1 Tembuku tahun pelajaran 2021/2022 yaitu terdiri dari 265 orang peserta didik. Sampel penelitian berjumlah 152 orang dengan menggunakan tabel yang dikembangkan dari rumus Isaac dan Michael pada taraf signifikansi 5%. Teknik pengumpulan data motivasi berprestasi menggunakan kuesioner yang disebarakan kepada peserta didik dan data hasil belajar menggunakan pencatatan dokumen berasal dari hasil penilaian guru. Teknik analisis data menggunakan korelasi *Product Moment* dengan bantuan *SPSS 26.0 for Windows*. Rata-rata motivasi berprestasi adalah 61,51 dan rata-rata hasil belajar PJOK materi Bola Voli adalah 76,53. Signifikansi korelasi *Product Moment* pada uji hipotesis diperoleh 0,000, yaitu $p < 0,05$ dan derajat koefisien korelasi sebesar 0,771 termasuk pada kategori hubungan kuat. Disimpulkan bahwa terdapat hubungan signifikan antara motivasi berprestasi dengan hasil belajar Bola Voli di Masa Pandemi Covid-19 pada peserta didik kelas XI di SMA Negeri 1 Tembuku.

Kata-kata kunci: motivasi berprestasi, hasil belajar, bola voli.

**THE RELATIONSHIP OF ACHIEVEMENT MOTIVATION WITH VOLLEY
BALL MATERIAL LEARNING OUTCOMES DURING THE COVID-19
PANDEMIC IN STUDENTS OF CLASS XI AT SMAN 1 TEMBUKU
FOR THE ACADEMIC YEAR 2021/2022**

ABSTRACT

This research aimed to determine the relationship between achievement motivation and volleyball learning outcomes in class XI students of SMA Negeri 1 Tembuku in the 2021/2022 academic year. This research used correlational method. The research population were all students of class XI at SMAN 1 Tembuku for the academic year 2021/2022, which consists of 265 students. The sample of this study amounted to 152 people using a table developed from the formula of Isaac and Michael at a significance level of 5%. The technique of collecting achievement motivation data used a questionnaire distributed to students and learning outcomes data using document recording derived from the results of teacher assessments. The data analysis technique used Product Moment correlation with the help of SPSS 26.0 for Windows. The average achievement motivation was 61.51 and the average PJOK learning outcome for Volleyball was 76.53. The significance of the Product Moment correlation in the hypothesis test was 0.000, that was $p < 0.05$ and the degree of correlation coefficient was 0.771 including in the category of strong relationship. It was concluded that there was a positive relationship between achievement motivation and volleyball learning outcomes during the Covid-19 pandemic in class XI students at SMA Negeri 1 Tembuku. It was recommended for PJOK teachers to improve good cooperation with parents of students to increase students' achievement motivation in participating in PJOK learning activities.

Keywords: achievement motivation, learning outcomes, volley ball.
