ABSTRACT

This research aimed at analyzing the speech act performed by the characters in Matilda Wormwood movie. This study was carried out in the form of a descriptive qualitative study. The major data sources were utterances in the Matilda Wormwood movie. The movie screenplay was also employed as a supplementary source in this research. The data were obtained using observation and documentation procedures, and they were evaluated using the steps of data condensation, data presentation, and conclusion drafting. The research findings revealed that utterances employed in the form of the locutionary act, the type of the illocutionary act, and classification of speech act. The most dominant the locutionary act utilized by the research subject is a declarative form, which consisted of 37% of the total data. Then, the most prevalent the illocutionary act used by the research subject is a representative type, which consisted of 36% of the total data. Since the form and type of the research subject's most prominent speech act are relevant. Furthermore, the research subject's utterances are frequently given directly in sequence, which Yule's theory refers to as a direct speech act. This research increased the knowledge and comprehension of the many forms and types of speech act in society purposes of language.

ABSTRAK

Penelitian ini bertujuan untuk menganalisis tindak tutur yang dilakukan oleh para tokoh dalam film Matilda Wormwood. Penelitian ini dilakukan dalam bentuk penelitian deskriptif kualitatif. Sumber data utama adalah ucapan dalam film Matilda Wormwood. Skenario film juga digunakan sebagai sumber tambahan dalam penelitian ini. Data diperoleh dengan prosedur observasi dan dokumentasi, serta dievaluasi dengan langkah-langkah kondensasi data, penyajian data, dan penarikan kesimpulan. Hasil penelitian mengungkapkan bahwa tuturan yang digunakan berupa tindak lokusi, jenis tindak ilokusi, dan klasifikasi tindak tutur. Lokusi yang paling dominan digunakan oleh subjek penelitian adalah bentuk deklaratif, yang terdiri dari 37% dari total data. Kemudian, tindak ilokusi yang paling banyak digunakan oleh subjek penelitian adalah tipe representatif, yang terdiri dari 36% dari total data. Karena bentuk dan jenis tindak tutur subjek penelitian yang paling menonjol adalah relevan. Lebih lanjut, tuturan subjek penelitian sering diberikan secara langsung secara berurutan, yang oleh teori Yule disebut sebagai tindak tutur langsung. Penelitian ini meningkatkan pengetahuan dan pemahaman tentang berbagai bentuk dan jenis tindak tutur dalam masyarakat tujuan bahasa.
