## ABSTRACT

This research focused on: (1) Procedures for using PaTik Bali application in the blended learning model to improve the ability to write the Balinese script for class VIII SMP Katolik Soverdi, (2) PaTik Bali application in the Blended Learning model can be used to improve the ability to write Balinese characters Class VIII SMP Katolik Soverdi (3) Students' opinions regarding the existence of PaTik Bali applications in the blended learning model to improve the ability to write Balinese script class VIII of SMP Katolik Soverdi. The use of PaTik Bali application as one of the implementations of learning that applies technology in writing Balinese script that can improve the ability of students in writing Balinese script. The subjects of this study were the students of class VIII of SMP Katolik Soverdi. The subjects were selected with cluster sampling techniques. The object of the research were the learning of writing the Balinese script and the ability of students in writing the Balinese script. This study used qualitative and quantitative descriptive methods. The results of this study were (1) the stages of the implementation of research directly in the class regarding writing Balinese script with PaTik Bali application consisting of apperception, main activities, and closing. (2) The results of the students' ability test in writing the Balinese script increased from the initial value that had a series of 62.5 to be in the first cycle with average results of students 73.06 and the second cycle result of students in the amount of 82.59. (3) The results of the average student opinion there is an increase from 98.13% in the first cycle to 100% in the second cycle or an increase of 1.87%, meaning that the students agree or agree or are good and positive. The PaTik Bali application was effectively used to improve the ability of students in writing the Balinese script.
