**ABSTRAK**

Tujuan penelitian ini untuk mengevaluasi pembinaan yang dilakukan oleh Pengkab TI Bondowoso. Penelitian ini menggunakan metode *contex*, *input*, *process*, *product*. Penelitian deskriptif kualitatif metode survei. Responden dalam penelitian ini adalah pengurus, pelatih, dan atlet Pengkab TI Bondowoso. Observasi, wawancara, pengambilan data arsip, dan triangulasi data adalah teknik yang digunakan. Hasil Penelitian didapatkan yaitu pada Evaluasi *Contex* organisasi dijalankan sudah sangat baik dengan kelengkapan administrasi dan program kerja yang sudah ada dan terlaksana akan tetapi perlu adanya pembaruan dan inovasi program kerja untuk dapat lagi mengoptimalkan program pembinaan, dan perlu dilakukannya penyusunan AD/ART agar dalam menjalankan organisasi dan pembinaan dapat berjalan dengan tertib, hubungan antara pengurus, pelatih, dan atlet berjalan dengan solid. Evaluasi *Input* rekrutmen pelatih dan atlet yang dilakukan berjalan sesuai dengan proses rekrutmen yang ditetapkan dan sesuai dengan kriteria yang dibutuhkan sehingga dapat mengoptimalkan proses pembinaan yang akan dilangsungkan, diperlukan adanya pengadaan alat dan fasilitas untuk dapat memadai proses pembinaan. Evaluasi *Process* perlu adanya peningkatan dan inovasi dalam penyusunan program latihan untuk dapat mengurangi rasa bosan pada atlet dan meningkatkan lagi kualitas latihan. Evaluasi *Product* berdasarkan perencanaan dan target program pembinaan sudah sangat bagus dengan hasil yang sudah dicapai. dapat disimpulkan yaitu pembinaan prestasi Pengkab TI Bondowoso sudah dilakukan dengan sangat baik akan tetapi perlu adanya inovasi dan pebaruan program pembinaan dan perlu adanya pengadaan alat dan fasilitas untuk dapat menunjang dan mengoptimalkan proses pembinaan.

Kata Kunci : Evaluasi, Model CIPP, Pembinaan Prestasi, Taekwondo.

**EVALUATION OF THE ACHIEVMENT DEVELOPMENT PROGRAM FOR  
THE SPORT OF TAEKWONDO AT THE BONDOWOSO REGENCY WITH  
THE CONTEX, INPUT, PROCESS, PRODUCT**

**ABSTRACT**

*The purpose of this study was to evaluate the coaching carried out by the Bondowoso IT Regency Government. This study used the contex method, input, process, product. This research is a qualitative descriptive study using research methods. The respondents in this study were administrators, coaches, and athletes of the Bondowoso IT District. Observation, interviews, archival data retrieval, and data triangulation are the techniques used. The results obtained from this research are that in the Contex Evaluation the organization has been running very well with the completeness of the existing administration and work programs and implemented, but there is a need for updates and innovations in work programs to be able to optimize the coaching program again, and it is necessary to prepare AD / ART so that in running the organization and coaching can run in an orderly manner, the relationship between administrators, coaches, and athletes runs solidly. Evaluation of inputs for the recruitment of coaches and athletes carried out runs in accordance with the established recruitment process and in accordance with the required criteria so that it can optimize the coaching process to be carried out, it is necessary to procure tools and facilities to be adequate for the coaching process. Process Evaluation needs to be improved and innovated in the preparation of training programs to be able to reduce boredom in athletes and improve the quality of training again. Process evaluation needs improvement and innovation in the preparation of training programs to reduce boredom in athletes and improve the quality of training. Product evaluation based on the planning and target of the coaching program has been very good with the results that have been achieved. It can be concluded that the development of the Bondowoso IT Regency Government achievements has been carried out very well, but there is a need for innovation and renewal of the coaching program and the need for procurement of tools and facilities to be able to support and optimize the coaching process.*
