

**PENGEMBANGAN MEDIA VIDEO ANIMASI BERBASIS TRI KAYA
PARISUDHA PADA TEMA LINGKUNGANKU BAGI ANAK KELOMPOK
B PAUD KUMARA WARMADDEWA
TAHUN AJARAN 2022/2023**

ABSTRAK

Terdapat guru PAUD yang mengalami kendala dan kesulitan saat mengembangkan media pembelajaran yang tepat saat mengajar. Tujuan dari penelitian ini yaitu (1) mendeskripsikan rancang bangun media video animasi berbasis *Tri Kaya Parisudha* pada tema lingkunganku bagi anak kelompok B PAUD Kumara Warmadewa (2) mengetahui kualitas media video animasi berbasis *Tri Kaya Parisudha* pada tema lingkunganku bagi anak kelompok B PAUD Kumara Warmadewa, dan (3) mengetahui efektivitas media video animasi berbasis *Tri Kaya Parisudha* pada tema lingkunganku bagi anak kelompok B PAUD Kumara Warmadewa. Produk diuji oleh 1 ahli isi pembelajaran, 1 ahli desain instruksional, 1 ahli media pembelajaran, serta dengan subjek penelitian 3 orang siswa uji coba perorangan, 6 orang siswa uji coba kelompok kecil, dan uji efektivitas menggunakan 19 orang siswa. Model penelitian yang digunakan yaitu model ADDIE (*Analyze, Design, Development, Implementation, Evaluation*). Penelitian pengembangan menggunakan metode pengumpulan data dengan angket/kuesioner serta menggunakan angket observasi (non tes). Teknik analisis data yang digunakan analisis deskriptif kuantitatif dan statistik inferensial. Hasil penelitian menemukan (1) Rancang bangun media video animasi menggunakan model pengembangan ADDIE dengan hasil penilaian dari ahli rancang bangun 90,90%. (2) Kualitas media video animasi menunjukkan hasil penilaian menurut ahli dan subjek penelitian secara berturut-turut sebesar 95,00%, 88,88%, 83,33%, 94,16%, dan 92,5% dengan memiliki kategori baik dan sangat baik sehingga produk yang dikembangkan valid untuk digunakan. (3) Efektivitas media video animasi berdasarkan hasil uji-t diperoleh $t_{hitung} = -14,18$ untuk $db = 18$ dan taraf signifikan 5% = 1,734. Hal ini berarti $t_{hitung} > t_{tabel}$, sehingga H_0 ditolak dan H_1 diterima. Dengan demikian hasil penelitian ini menunjukkan bahwa Media Video Animasi Berbasis *Tri Kaya Parisudha* efektif diterapkan pada Tema Lingkunganku pada Anak Kelompok B PAUD.

Kata-kata kunci: Video Animasi, Tri Kaya Parisudha, Lingkunganku

ABSTRACT

There are PAUD teachers who experience problems and difficulties when developing appropriate learning media when teaching. The aims of this study were (1) to describe the design of Tri Kaya Parisudha-based animated video media on the theme of my environment for group B children in PAUD Kumara Warmadewa (2) to determine the quality of animated video media based on Tri Kaya Parisudha on the theme of my environment for group B children in PAUD Kumara Warmadewa , and (3) to find out the effectiveness of Tri Kaya Parisudha-based animated video media on the theme of my environment for group B children in PAUD Kumara Warmadewa. The product was tested by 1 learning content expert, 1 instructional design expert, 1 instructional media expert, as well as with research subjects 3 individual trial students, 6 small group trial students, and an effectiveness test using 19 students. The research model used is the ADDIE model (Analyze, Design, Development, Implementation, Evaluation). Research development using data collection methods with questionnaires/questionnaires and using observation questionnaires (non-test). The data analysis technique used is quantitative descriptive analysis and inferential statistics. The results of the study found (1) The design of animated video media uses the ADDIE development model with the results of an assessment by design experts of 90.90%. (2) The quality of animated video media shows the results of the assessment according to experts and research subjects respectively 95.00%, 88.88%, 83.33%, 94.16% and 92.5% with good and bad categories. very good so that the product developed is valid for use. (3) The effectiveness of animated video media based on the results of the t-test obtained $t_{count} = -14.18$ for $db = 18$ and a significant level of $5\% = 1.734$. This means $t_{count} > t_{table}$, so H_0 is rejected and H_1 is accepted. Thus the results of this study indicate that Video Animation Media Based on Tri Kaya Parisudha is effectively applied to the My Environment Theme for Group B PAUD Children.

Key words: Animation Video, Tri Kaya Parisudha, My Environment
