

ABSTRAK

Pratiwi, Dewi Dendy (2022), *Hubungan Tingkat Perekonomian, Pekerjaan Orangtua dan Letak Geografis dengan Minat Belajar Pendidikan Jasmani Olahraga dan Kesehatan di Masa Pandemi Covid-19 di SMA Widiatmika Jimbaran Badung*. Tesis, Program Studi Pendidikan Olahraga, Program Pascasarjana, Universitas Pendidikan Ganesha.

Kata-kata kunci: tingkat perekonomian, pekerjaan, letak geografis, minat belajar PJOK.

Penelitian ini bertujuan untuk mengetahui hubungan signifikan antara tingkat perekonomian, pekerjaan orangtua dan letak geografis dengan minat belajar pendidikan jasmani, olahraga dan kesehatan di masa pandemi *covid-19* di SMA Widiatmika. Metode penelitian yang digunakan adalah korelasi. Subjek penelitian ini adalah seluruh peserta didik di SMA Widiatmika. Teknik analisis data yang digunakan adalah dengan teknik *pearson product moment* dan analisis regresi linier berganda. Hasil penelitian ini menunjukkan: 1) Terdapat hubungan yang positif dan signifikan antara tingkat perekonomian dengan minat belajar pendidikan jasmani olahraga dan kesehatan di masa pandemi *covid-19*. 2) Terdapat hubungan yang positif dan signifikan antara pekerjaan dengan minat belajar pendidikan jasmani olahraga dan kesehatan di masa pandemic *covid-19*. 3) Terdapat hubungan yang positif dan signifikan antara letak geografis dengan minat belajar pendidikan jasmani olahraga dan kesehatan di masa pandemi *covid-19*. 4) Terdapat hubungan yang positif dan signifikan antara tingkat perekonomian, pekerjaan dan letak geografis dengan minat belajar pendidikan jasmani olahraga dan kesehatan di masa pandemi *covid-19*.

ABSTRACT

Pratiwi, Dewi Dendy (2022), Relationship between Economic Level, Parents' Occupation and Geographical Location with Interest in Learning Physical Education, Sports and Health during the Covid-19 Pandemic at Widiatmika High School Jimbaran Badung. Thesis, Sports Education Study Program, Graduate Program, Ganesha University of Education.

Keywords: economic level, occupation, geographical location, interest in learning PJOK.

This study aims to determine the significant relationship between economic level, parental occupation and geographic location with interest in learning physical education, sports and health during the COVID-19 pandemic at Widiatmika High School. The research method used is correlation. The subjects of this study were all students at SMA Widiatmika. The data analysis technique used is the Pearson product moment technique and multiple linear regression analysis. The results of this study indicate: 1) There is a positive and significant relationship between the level of the economy and interest in learning physical education, sports and health during the COVID-19 pandemic. 2) There is a positive and significant relationship between work and interest in learning physical education, sports and health during the covid-19 pandemic. 3) There is a positive and significant relationship between geographic location and interest in learning physical education, sports and health during the COVID-19 pandemic. 4) There is a positive and significant relationship between the level of economy, occupation and geographical location with interest in learning physical education, sports and health during the covid-19 pandemic.
