Elementary School Teacher Education Study Program

ABSTRACT

This study aims to determine the design, validity, teacher response and student response to Balinese culture-based digital comic media to strengthen the Pancasila Student Profile in grade IV Elementary School students. The development model applied is ADDIE. The subject of this study was digital comic media based on Balinese culture, while the objects in this study were the design, validity of the developed media, teacher responses, and student responses to the developed media. The data collection method used a questionnaire by giving assessment sheets to material content experts, media experts, learning design experts, grade IV teachers as practitioners, and 12 grade IV students. The instrument used to measure the validity of digital comics is a rating scale, namely assessment sheets from experts, practitioners and students. The research data were then analyzed. The conclusions obtained from this study are (1) the design of digital comic learning media is in the form of a PDF file consisting of comic covers, comic opening, comic contents, and comic closing, (2) The validity of digital comic learning media is stated to be valid and feasible based on the acquisition the percentage of material content experts is 98%, media experts are 95%, and design experts are 98% with very good qualifications, (3) the response of grade IV SD teachers based on practitioner tests obtained a percentage of 100% with very good qualifications so that they are suitable for use in activities learning in class IV, (4) student responses based on individual trials obtained a percentage of 98.7% and small group trials of 97.7% with very good qualifications so that they are suitable for use in learning activities in class IV.
