ABSTRAK

Penelitian pengembangan ini dilaksanakan untuk mengembangkan Lembar Kerja Peserta Didik (LKPD) berbasis Profil Pelajar Pancasila sesuai dengan kebutuhan siswa dalam pembelajaran ekonomi. Tujuan dari penelitian ini untuk mengetahui rancangan, validitas, serta kelayakan LKPD berbasis Profil Pelajar Pancasila dalam Mata Pelajaran Ekonomi di SMAN 1 Singaraja. Subjek uji coba dalam penelitian ini adalah ahli materi pembelajaran, ahli media pembelajaran, dan siswa kelas XII di SMAN 1 Singaraja. Objek uji coba dalam riset ini adalah LKPD yang dikembangkan. Penelitian pengembangan ini menggunakan model pengembangan *4D Models (define, design, develop, disseminate)* sebagai langkah-langkah sistematis dalam proses pengembangan produk. Metode pengumpulan data menggunakan metode kuesioner, observasi, dan wawancara tidak terstruktur. Instrumen pengumpulan data menggunakan kuesioner berupa lembar validasi ahli dan angket respon siswa. Teknik analisis data menggunakan teknik analisis data deskriptif kuantitatif dan deskriptif kualitatif. Hasil penelitian pengembangan ini adalah produk berupa LKPD, meliputi hasil: (a) deskripsi rancangan LKPD berbasis Profil Pelajar Pancasila yaitu tahap *define, design, develop, disseminate*; (b) LKPD berbasis Profil Pelajar Pancasila dinyatakan layak berdasarkan hasil uji validitas dengan para ahli yakni hasil penilaian ahli materi pembelajaran memperoleh persentase rata-rata skor sebesar 95% dengan kualifikasi sangat baik, serta hasil penilaian ahli media pembelajaran memperoleh persentase skor sebesar 97% dengan kualifikasi sangat baik; (c) LKPD berbasis Profil Pelajar Pancasila dinyatakan layak berdasarkan hasil uji coba kelompok kecil yang memperoleh persentase skor sebesar 89% dengan kualifikasi sangat baik. Dari hasil uji coba dapat disimpulkan bahwa Lembar Kerja Peserta Didik (LKPD) berbasis Profil Pelajar Pancasila layak digunakan pada proses pembelajaran.

ABSTRACT

This development research was carried out to develop Student Worksheets (LKPD) based on Pancasila Student Profiles in accordance with the needs of students in economics learning. The purpose of this study was to determine the design, validity, and feasibility of LKPD based on Pancasila Student Profiles in Economics at SMAN 1 Singaraja. The test subjects in this study were learning material experts, learning media experts, and class XII students at SMAN 1 Singaraja. The test object in this research is the developed LKPD. This development research uses the 4D Models development model (define, design, develop, disseminate) as systematic steps in the product development process. Methods of data collection using questionnaires, observation, and unstructured interviews. The data collection instrument used a questionnaire in the form of an expert validation sheet and a student response questionnaire. The data analysis technique uses descriptive quantitative and descriptive qualitative data analysis techniques. The results of this development research are products in the form of LKPD, including the results of: (a) a description of the LKPD design based on the Pancasila Student Profile, namely the define, design, develop, disseminate stages; (b) LKPD based on Pancasila Student Profiles was declared feasible based on the results of the validity test with experts, namely the results of the assessment of learning material experts obtained an average percentage score of 95% with very good qualifications, and the results of the assessment of learning media experts obtained a score percentage of 97% with very good qualifications; (c) LKPD based on the Pancasila Student Profile was declared feasible based on the results of the small group trial which obtained a score percentage of 89% with very good qualifications. From the results of the trial it can be concluded that Student Worksheets (LKPD) based on Pancasila Student Profiles are appropriate for use in the learning process.
