## ABSTRAK

Penelitian ini bertujuan untuk mengembangkan bahan ajar digital konsep dasar IPS materi kegiatan ekonomi berbasis *case method*. Penelitian ini merupakan penelitian pengembangan yang dilaksanakan menggunakan model 4D dengan menggunakan tahapan *define, design, develop* dan *dessiminate*. Pada tahap *dessiminate* hanya menerapkan uji coba perorangan dan uji coba kelompok kecil tidak sampai pada uji coba kelompok besar/lapangan dikarenakan keterbatasan waktu. Subjek dalam penelitian ini berupa produk yang dikembangkan yaitu bahan ajar digital konsep dasar IPS. Sedangkan obyek dalam penelitian ini yaitu validitas, dan kepraktisan bahan ajar digital yang dikembangkan. Metode pengumpulan data yang digunakan dalam penelitian ini adalah *studi literatur* metode kuesioner dengan memberikan lembar penilaian kepada para ahli dan praktisi, uji perorangan dan uji kelompok kecil yang sudah teruji validitasnya. Data yang diperoleh dilakukan uji validitas yang dihitung menggunakan rumus aiken's yang dikonverensikan ke dalam kriteria indeks penilaian validitas, uji kepraktisan oleh praktisi dan mahasiswa menggunakan rumus deskriptif presentase. Hasil analisis yang diperoleh: (1) hasil uji ahli materi diperoleh **1,00** dengan kriteria **sangat valid**, (2) hasil uji ahli media diperoleh **0,921** dengan kriteria **sangat valid** (3) hasil uji ahli desain diperoleh **0,921** dengan kriteria **sangat valid**. Sedangkan uji kepraktisan oleh (1) praktisi diperoleh persentase **100%** dengan kualifikasi **sangat baik**, (2) uji perorangan diperoleh persentase **98%** dengan kualifikasi **sangat baik**, dan (3) uji kelompok kecil diperoleh persentase **95%** dengan kualifikasi **sangat baik**. Berdasarkan analisis tersebut maka dapat disimpulkan bahwa pengembangan bahan ajar digital konsep dasar IPS materi kegiatan ekonomi berbasis *case method* dinyatakan valid dan praktis untuk digunakan sebagai pedoman belajar mengajar pada mata kuliah konsep dasar IPS.

**Kata Kunci** : modul ajar digital, konsep dasar IPS, kegiatan ekonomi.

**DEVELOPMENT OF DIGITAL TEACHING MATERIALS FOR BASIC  
CONCEPTS OF IPS ECONOMIC ACTIVITY MATERIAL BASED ON CASE  
METHOD**

**ABSTRACT**

*This study aims to develop digital teaching materials for basic social studies concepts of economic activity material based on case method. This research is a development research conducted using the 4D model using the stages of define, design, develop and disseminate. At the disseminate stage only applying individual trials and small group trials did not reach the large group / field trials due to time constraints. The subject in this study is a product developed, namely digital teaching materials for basic social studies concepts. While the object in this study is the validity, and practicality of digital teaching materials developed. The data collection method used in this research is a literature study questionnaire method by giving assessment sheets to experts and practitioners, individual tests and small group tests that have been tested for validity. The data obtained were validity tests calculated using Aiken's formula which was converted into validity assessment index criteria, practicality tests by practitioners and students using the descriptive percentage formula. The results of the analysis obtained: (1) the results of the material expert test obtained 1.00 with very valid criteria, (2) the results of the media expert test obtained 0.921 with very valid criteria (3) the results of the design expert test obtained 0.921 with very valid criteria. While the practicality test by (1) practitioners obtained a percentage of 100% with very good qualifications, (2) individual tests obtained a percentage of 98% with very good qualifications, and (3) small group tests obtained a percentage of 95% with very good qualifications. Based on this analysis, it can be concluded that the development of digital teaching materials for basic social studies concepts of economic activity material based on case method is declared valid and practical to be used as a teaching and learning guide in basic social studies concepts courses.*

*Keywords: digital teaching module, basic social studies concepts, economic activities.*
