

## ABSTRAK

**Kusuma, Ni Made Enita** (2023), *Hubungan Antara Fear Of Missing Out (FoMO) Media Sosial dan Konsep Diri Akademis IPA dengan Prestasi Belajar IPA Siswa SMP Negeri 1 Singaraja*. Tesis, Pendidikan Dasar, Program Pascasarjana, Universitas Pendidikan Ganesha.

*Kata-kata kunci:* Fear Of missing Out (FoMO), Media Sosial, Konsep Diri Akademis, Prestasi Belajar IPA

Penelitian ini bertujuan mengetahui antara variabel, yaitu: (1) hubungan *fear of missing out* (fomo) media sosial dan prestasi belajar IPA siswa SMP Negeri 1 Singaraja, (2) hubungan konsep diri akademis IPA dan prestasi belajar IPA siswa SMP Negeri 1 Singaraja, dan (3) untuk mengetahui secara bersama-sama hubungan antara *fear of missing out* (fomo) media sosial dan konsep diri akademis IPA dengan prestasi belajar IPA siswa SMP Negeri 1 Singaraja. Penelitian ini merupakan penelitian *ex post facto*. Data dalam penelitian ini dikumpulkan menggunakan kuesioner pada variabel bebas serta menggunakan prestasi nilai rapor IPA semester ganjil 2022 pada variabel terikat. Sample dalam penelitian ini adalah 340 orang siswa yang didapat menggunakan teknik *stratified proportional random sampling*. Data dianalisis menggunakan uji regresi dan korelasi parsial. Hasil penelitian menunjukkan bahwa diperoleh persamaan garis regresi  $Y = 86,64 - 0,56X_1 + 0,34X_2$  dengan nilai  $(p) < 0.05$  artinya dapat disimpulkan bahwa: *Pertama*, terdapat hubungan *fear of missing out* (fomo) media sosial dan prestasi belajar IPA siswa SMP Negeri 1 Singaraja. *Kedua*, terdapat hubungan konsep diri akademis IPA dan prestasi belajar IPA siswa SMP Negeri 1 Singaraja. *Ketiga*, terdapat hubungan secara bersama-sama antara *fear of missing out* (fomo) media sosial dan konsep diri akademis IPA dengan prestasi belajar IPA siswa SMP Negeri 1 Singaraja.

## ABSTRACT

**Kusuma, Ni Made Enita** (2023), *The Relationship Between Fear Of Missing Out (FoMO) On Social Media and Science Academic Self-Concept with Science Learning Achievement of SMP Negeri 1 Singaraja Students*. Thesis, Primary Education, Postgraduate Program, Ganesha University of Education.

Keywords: Fear Of Missing Out (FoMO), social media, Academic Self-Concept, Science Learning Achievement

This study aims to determine between variables, namely: (1) *the relationship between fear of missing out (fomo) social media and science learning achievement of SMP Negeri 1 Singaraja students*, (2) *the relationship between science academic self-concept and science learning achievement of SMP Negeri 1 Singaraja students*, and (3) *to find out together the relationship between fear of missing out (fomo) social media and science academic self-concept with science learning achievements of SMP Negeri 1 Singaraja students*. This research is *ex post facto research*. The data in this study was collected using questionnaires on independent variables and using the achievement of science report cards for the odd semester of 2022 on the dependent variables. The sample in this study was 340 students obtained using stratified *proportional random sampling technique*. Data were analyzed using regression and partial correlation tests. The results showed that the regression line equation  $Y = 86.64 - 0.56X_1 + 0.34X_2$  with a value of  $(p) < 0.05$  means that it can be concluded that: *First*, there is a relationship between *fear of missing out (fomo) social media and science learning achievement of SMP Negeri 1 Singaraja students*. *Second*, there is a relationship between the academic self-concept of science and science learning achievement of students of SMP Negeri 1 Singaraja. *Third*, there is a shared relationship between the *fear of missing out (fomo) of social media and the academic self-concept of science with the science learning achievement of SMP Negeri 1 Singaraja students*.
