1. Instrument Validation (Revision 1)

Instrument: Questionnaire
Expert Judge 1 : Dr. I G A Lokita Purnamika Utami, S.Pd., M. Pd.

No	Aspect	Dimension	Indicators	Statement	Response		Comments
					Relevant	Irrelevant	
1	Content Knowledge	Language Awareness (Andrews, 2001)	1. Realize the importance of correcting grammar mistakes that occur in class	a. Grammar errors that occur in class are important things to be corrected.	✓		
				b. The use of grammar in class is not an important thing to be corrected.	✓		
			2. Realize the importance of correcting pronunciation, spelling or word choice	a. Mispronunciation, spelling, and word choice are important things to be noticed and corrected	✓		
				b. Mispronunciation, spelling, and word choice are not important things to be noticed and corrected	✓		
			3. Use/speak English Fluently	a. Intense use of English is important because it can improve speaking fluency in class	✓		
				b. Intense use of English is not important as long as students understand the meaning of the words	✓		
4. Write in English on the board/on a document	a. Errors in English writing (documents/whiteboard) need to be considered	✓					
2	Pedagogical Knowledge	Knowledge about Curriculum Development (Zid in Setiawan, 2018)	1. The teacher is able to analyze the learning objectives in the curriculum to compile the syllabus	b. English errors in writing (documents / whiteboards) do not need to be considered as long as the readers understand the meaning of the text	✓		
				a. The syllabus is arranged based on the learning objectives that have been analyzed in the curriculum	✓		
				b. Determine independently the	✓		

			learning objectives in the preparation of the syllabus			
		2. Able to direct learning topics with learning objectives to be achieved	a. Directing learning topics in accordance with the learning objectives to be achieved	✓		
			b. Learning topics are developed based on the situation in the classroom.	✓		
		3. Aligning the relationship between one topic and the next topic contained in the curriculum	a. The teacher can make activities that link the relationship between the topics taught previously and the topics at the next meeting in accordance with the curriculum	✓		

			b. The activities arranged focus on or only discuss one topic without linking it to the previous topic	✓		
	Knowledge about the characteristics of young learners (Zid in Setiawan, 2018)	1. Try something new.	a. Trying new things such as using technology as a learning media can help learning activities in classroom	✓		
			b. Trying new things such as using technology as a learning media can reduce student focus when following the learning activities in classroom	✓		

		2. Build knowledge from working with objects or ideas.	a. Exploring objects and circumstances in the surrounding environment can build new knowledge for each student	✓		
--	--	--	--	---	--	--

			b. Objects and the surrounding environment cannot form new knowledge if explored by students	✓		
		3. Learn through direct experience	a. Students more easily understand the concept through direct learning activities	✓		
			b. Students will quickly forget their understanding of the material that they have independently obtained	✓		
		4. Learn by listening and repeating.	a. Listening and repeating activities can help students improve their English skills	✓		

			b. In learn English, listening and repeating activities cannot improve student's English skills	✓		
		5. Learn when they are motivated	a. students will learn optimally when students feel interested and motivated in learning activities	✓		
			b. Learning activities must be carried out without considering the condition of students to maximize study time	✓		

		6. Engage in a fun learning activities	a. Students can concentrate longer if the classroom atmosphere is enjoyable	✓		
--	--	--	---	---	--	--

			b. Various learning activities will disturb students' ability to focus.	✓		
		7. Learn by associating with previous knowledge.	a. Good learning materials must be related to something familiar and close to students	✓		
			b. The material given must be something new that is not familiar for students.	✓		
		8. Learning through the environment around them	a. Students will easily understand the material if the material accordance with the environment around the students	✓		

		b. Students' knowledge in learning English is not affected by the use of objects around them	✓		
Knowledge about lesson plan (Zid in Setiawan, 2018)	1. Make a lesson plan that corresponds with the learning objectives to be achieved	a. Lesson plan must be corresponding with the learning objective to be achieved	✓		
		b. Lesson plan mustn't be corresponding with the learning objective to be achieved	✓		
	2. Designing effective learning activities	a. Learning activities can run well if they are designed effectively	✓		

		b. Learning activities can be designed by adjusting the situations that occur in class	✓		
	3. Arrange student-	a. The learning activities must be student-centered	✓		

	centered activities	b. Learning activity is fully held by the teacher	✓		
	4. Including media and technology in the learning activity	a. In learning activities should include the use of media and technology	✓		
		b. Including media and technology has no effect on learning activity	✓		
The use of learning strategies for young learners (Zid in Setiawan, 2018)	1. Teach by using visual tools	a. Realizing the use of interesting and varied visual media to attract students' attention	✓		
		b. Using PowerPoint which only contains the material to be conveyed without being combined with interesting animations or images	✓		

	2. Teach using media that can be explored	a. Improve student's language skill by using various learning media which gives students space to explore	✓		
		b. Many difficulties encountered when developing learning activities using visual media that can be explored by students	✓		
	3. Giving context/situation	a. Make learning English more meaningful by using topics related to students' daily lives	✓		

		b. Ask students to memorize formulas or grammar rules according to the material being discussed	✓		
--	--	---	---	--	--

		4. Doing contextual activity	a. Carries out learning activities related to real events experienced by students	✓		
			b. Ask students to write on student's book and mention again the vocabulary that has been given by the teacher	✓		
		5. Doing activities that are motivating and interesting	a. Invite students to do activities they like such as moving, singing, or playing so that students are interested in learning	✓		
			b. Ask students to take notes and memorize the material presented	✓		

		6. Stimulate active student participation	a. Organizing learning activities that provide space for students to explore directly, so that students can actively participate	✓		
			b. Organizing learning activities that only make students focus on doing assignments in the book	✓		
		7. Give or apply a game in the learning process	a. Giving or applying a game in the classroom to create a fun learning	✓		
			b. I find difficulties when managing the class if I give the student to play game	✓		

		8. Create a fun learning	a. Giving students to involve property or	✓		
--	--	--------------------------	---	---	--	--

	environment (by using a joke or song)	objects around in learning activities	✓		
		a. I keep following the allocation for learning even though the student is no longer motivated in learning	✓		
	9. Improve the four language skills by using appropriate learning media	a. Using learning media in the learning activities to exercise their language skills	✓		
		b. I find difficulties to use learning media to improve their language skills	✓		

	10. Use activities that can encourage students' self-confidence in learning English	a. I encourage students' self-confidence by giving them activities that can make them perform in the front of the class	✓		
		b. I let other students mock the student who does any mistakes in English	✓		
	11. Use activities that can develop student's social skill	a. I create study groups consisting of heterogeneous students so that they can help each other in learning	✓		
		b. I allow students to choose friends they feel comfortable studying in groups	✓		

Knowledge about assessment (Zid in Setiawan, 2018)	1. Develop an assessment tool that fits the learning objectives	a. Choose an assessment tool that can provide students with learning experiences in accordance with learning objectives	✓		
--	---	---	---	--	--

			b. Choose assessment tools that appropriate with learning objectives cannot provide learning experiences	✓		
2. Using techniques of assessment that according to the ability or type of learning outcomes to be assessed			a. Using assessment techniques that are appropriate to the learning objectives and results to be achieved	✓		
			b. The assessment technique chosen is adjusted to the situation in the classroom	✓		
3. Create an assessment instrument that fits with skill achievement criteria			a. The assessment instrument used can describe the skills that have been achieved by students	✓		

			b. Applying one instrument method for all skills will be achieved	✓		
4. Arranging assessment activities make a positive contribution to student learning achievement			a. Assessment activities designed to give students full access to be able to find out their abilities	✓		
			b. Assessment activities are designed in traditional way (multiple choice/true or false) to provide reports on students's learning progress	✓		
5. Provide an evaluation of the assessment			a. Provide feedback on student achievement during learning	✓		

		that has been achieved	b. Provide feedback only to students who got low score	✓		
--	--	------------------------	--	---	--	--

No	Aspect	Dimension	Indicators	Statement	Response		Comments
					Relevant	Irrelevant	
1	Content Knowledge	Language Awareness (Andrews, 2001)	1. Realizing the importance of correcting grammar mistakes that occur in class	a. Grammar errors that occur in class are important things to be corrected.	✓		
				b. The use of grammar in class is not an important thing to be corrected.	✓		
			2. Realizing the importance of correcting pronunciation, spelling or word choice mistakes that occur in class	a. Mispronunciation, spelling, and word choice are important things to be noticed and corrected	✓		
				b. Mispronunciation, spelling, and word choice can be corrected by the students itself	✓		
		Language Proficiency (Andrews, 2001)	3. Using <u>speaking</u> English Fluently	a. Intense use of English is important because it can improve speaking fluency in class	✓		
				b. Intense use of English is not important as long as students understand the meaning of the words	✓		
			4. Writing in English on the board/on a document without errors	a. Errors in English writing (documents/ <u>whiteboard</u>) need to be considered to ensure clear communication and prevent misunderstandings.	✓		
				b. English errors in writing (documents / whiteboards) do not need to be considered as long as the readers understand the meaning of the text	✓		

2	Pedagogical Knowledge	Knowledge about Curriculum Development (Ratminingsih, 2020)	1. The teacher is able to analyze the learning objectives in the curriculum to compile the syllabus	a. The syllabus is arranged based on the learning objectives that have been analyzed in the curriculum	✓				
				b. Learning objectives are determined independently to arrange the syllabus	✓				
			2. Able to direct learning topics with learning objectives to be achieved	a. The learning topics are directed in accordance with the learning objectives to be achieved.	✓				
				b. The learning topics are developed based on the situation in the classroom.	✓				
			3. Aligning the relationship between one topic and the next topic contained in the curriculum	a. The activities are created by linking the topics taught previously with the topics being discussed	✓				
				b. The activities arranged focus on or	✓				
					curriculum	arranged focus on or only discuss one topic			
			Knowledge about the characteristics of young learners (Ratminingsih, 2020)	1. Trying something new.	a. New things such as using technology as a learning media can help learning activities in classroom	✓			
					b. New things such as using technology as a learning media can reduce student focus when following the learning activities in classroom	✓			
				2. Building knowledge from working with objects or ideas.	a. The objects and circumstances in the surrounding environment that students explore can build new knowledge	✓			
b. The objects and surrounding	✓								

			environment that students explore does not affect the knowledge gained by students			
		3. Learning through direct experience	a. Direct learning activity can help students to understand the concept easily.	✓		
			b. Students will quickly forget their understanding of the material that they have independently obtained	✓		
		4. Learning by listening and repeating.	a. The activities such as listening and repeating can help students improve their English skills	✓		
			b. The activities that only listen to the teacher's explanation can help improve students' English	✓		
		5. Learning when they are motivated	a. Students will learn optimally when they feel interested and motivated in learning activities	✓		
			b. Learning activities must be carried out without considering the condition of students to maximize the study time	✓		
		6. Engaging in a fun learning activities	a. Students can concentrate longer if the classroom atmosphere is enjoyable	✓		
			b. Various learning activities will disturb students' ability to focus	✓		

		7. Learning by associating with previous knowledge.	a. Good learning materials must be related to something familiar and close to students	✓		
			b. The material given must be something which only the teacher knows	✓		
		8. Learning through the environment around them	a. Students will easily understand the material if the material is in accordance with the environment around the students	✓		
			b. Students' knowledge in learning English is not affected by the use of objects around them	✓		
	Knowledge about lesson plan (Ratminingsih, 2020)	1. Making a lesson plan that corresponds with the	a. The lesson plan arranged is based on the learning objectives that must be achieved	✓		
		learning objectives to be achieved	b. Learning objectives have no effect on making lesson plans	✓		
		2. Designing effective learning activities	a. Learning activities can run well if they are designed effectively	✓		
			b. Learning activities can be designed by adjusting the situations that occur in class	✓		
		3. Arranging student-centered activities	a. The learning activities must be student-centered	✓		
			b. The learning activities are fully held by the teacher	✓		
		4. Including media and technology in the learning activity	a. The learning activities should include the use of media and technology	✓		
			b. The learning activity including media and	✓		

				technology has no effect on learning activity			
The use of learning strategies for young learners (Ratminingsih, 2020)	1. Teaching by using visual tools	a. Attractive and varied visual media could be used to attract students' attention	✓				
		b. The powerpoint used only contains the material to be conveyed without being combined with interesting animations or images	✓				
	2. Teaching by using media that can be explored	a. The student's language skill can be improved by using various learning media which gives students space to explore	✓				
		b. Many difficulties are encountered by the teacher when developing learning activities using visual	✓				
			activities using visual media explored by students				
	3. Giving context/ situation	a. English learning can be more useful by using topics related to students' daily lives	✓				
b. The students are asked to memorize formulas or grammar rules according to the material being discussed		✓					
4. Doing contextual activity	a. The learning activities carried out are related to real events experienced by students	✓					
	b. The students are asked to write on student's book and mention again the vocabulary that has	✓					

				been given by the teacher			
			5. Doing activities that are motivating and interesting	a. The students are invited to do activities they like such as moving, singing, or playing so that students are interested in learning	✓		
				b. The students are asked to take notes and memorize the material presented	✓		
			6. Stimulating active student participation	a. The learning activities are designed to provide space for students to explore directly, so that students can actively participate	✓		
				b. The learning activities are designed only for making students focus on doing assignments in the book	✓		
				assignments in the book			
			7. Giving or applying a game in the learning process	a. The game given or applied in the classroom can create a fun learning environment	✓		
				b. There are many difficulties when managing the class when students are given to play game	✓		
			8. Creating a fun learning environment (by using a joke or song)	a. Learning activities are made by involving properties or objects around the students	✓		
				b. Learning activities still continue according to the allocation of learning even though students are no longer motivated in learning	✓		

			9. Improving the four language skills by using appropriate learning media	a. Learning media are used in learning activities to practice their language skills	✓		
				b. There are many difficulties to use learning media to improve <u>their</u> language skills	✓		
			10. Using activities that can encourage students' self-confidence in learning English	a. Students' self-confidence are encouraged by giving them activities that can make them perform in the front of the class	✓		
				b. The students are allowed to mock other students who does any mistakes in English	✓		
			11. Using activities that can develop student's social skill	a. Study groups are created of heterogeneous students so that they can help each other in learning	✓		
				b. The students are <u>allow</u> to choose friends they feel comfortable studying in groups	✓		
		Knowledge about assessment (Ratminingsih, 2020)	1. Developing an assessment tool that fits the learning objectives	a. The assessment tool <u>are</u> chosen in order to provide a learning experience for students in accordance with the learning objectives	✓		
				a. Same assessment tools are applied to all materials	✓		
			2. Using techniques of assessment that according to the ability or type of learning	a. Assessment techniques that are appropriate to the learning objectives can be used to know student learning achievement.	✓		

		outcomes to be assessed	b. The assessment technique chosen is adjusted to the situation in the classroom	✓		
		3. Creating an assessment instrument that fits with skill achievement criteria	a. The assessment instrument used can describe the skills that have been achieved by students	✓		
			b. One instrument method is applied for all skills achieved	✓		
		4. Arranging assessment activities make a positive contribution to student learning achievement	a. Assessment activities are designed to give students full access to be able to find out their abilities	✓		
			b. Assessment activities are designed in traditional way (multiple choice/true or false) to provide reports on students's learning progress	✓

	1. Trying something new.	a. Do you think giving students space to be able to try new things is important?	✓		
		b. What learning activities do you use to give students space to try something new?	✓		
	2. Building knowledge from working with objects or ideas.	a. What kind of learning activities outside the classroom that you give to the students?	✓		
		b. Do you think giving students the opportunity to work with certain objects is important?	✓		
	3. Learning through direct experience	a. Does it give any positive effect of giving material to students through experience?	✓		
		b. What is the activity that can be used to give students a chance to learn through direct experience?	✓		
	4. Learning by listening and repeating.	a. Do you think carrying out listening activities and repeating sentences / utterances in learning activities is effective?	✓		
		b. What is the impact of holding listening	✓		

			activities and repeating sentences / utterances in learning activities?			
		5. Learning when they are motivated	a. Do you think learning when students are motivated is important?	✓		
			b. What is usually done to make students motivated in learning?	✓		
		6. Engaging in a fun learning activities	a. Do you think providing a fun classroom atmosphere is important?	✓		
			b. What kind of fun learning activity that you usually use in the classroom?	✓		
		7. Learning by associating with previous knowledge.	a. Do you think learning by associating with previous knowledge/material is important?	✓		
			b. What is the impact relating to the previous knowledge?	✓		
		8. Learning through the environment around them	a. Do you use any things around the students to support the learning process?	✓		
			b. What is the impact of learning through the environment around them?	✓		
	Knowledge about lesson plan (Ratminingsih, 2020)	1. Making a lesson plan that corresponds with the learning objectives to be achieved	a. Do you think making a lesson plan that corresponds with the learning objectives to be achieved is important?	✓		
			b. What is the impact of using a lesson plan that corresponds to the learning objective when teaching?	✓		
		2. Designing effective learning activities	a. Do you think designing an effective learning activity while teaching is important?	✓		
			b. What do you consider to design effective learning activities?	✓		

		3. Arranging student-centered activities	a. What is the impact of arranging student-centered activities?	✓			
			b. Are there any obstacles that are faced when arranging student-centered activities?	✓			
		4. Including media and technology in the learning activity	a. Do you think using media/technology in designing learning activities is important? Any examples	✓			
			b. What are the benefits when including media and technology in the learning activity?	✓			
		The use of learning strategies for young learners (Ratminingsih, 2020)	1. Teaching by using visual tools	a. Do you think using visual tools during teaching activities is important?	✓		
				b. What are the benefits of using visual tools during teaching activities?	✓		
2. Teaching using media that can be explored	a. Do you think using media that can be explored by the students		✓				
			explored by the students in learning activities is important?				
			b. What kind of media can be explored by the students that you have experienced?	✓			
		3. Giving the context/situation	a. What is the benefit of giving context or situation in the learning process?	✓			
			b. Are there any obstacles in providing context or situation to the students?	✓			
		4. Doing a contextual activity	a. Do you think connecting learning topics with students' real life is important?	✓			
			b. What activities do you usually use to link learning topics with students' real life?	✓			
		5. Doing activities that are	a. What kind of motivating and interesting activity that	✓			

			motivating and interesting	you usually do while teaching?			
				b. Are they more interested and excited in learning when you provide motivating and interesting activities?	✓		
			6. Stimulating active student participation	a. Do you think stimulating students to participate actively is important?	✓		
				b. What do you usually do to stimulate students to participate actively?	✓		
			7. Giving or applying a game in the learning process	a. What kind of game do you use in the learning process?	✓		
				b. Is there any difficulty that you faced while using games in the learning process?	✓		
			8. Creating a fun learning environment (by using a joke or song)	a. Do you think using jokes or songs to create a fun learning environment is	✓		
				important?			
				b. What kind of joke or song do you give to your students? Are there some tips in choosing jokes or songs that are suitable for the students?	✓		
			9. Improving the four language skills by using appropriate learning media	a. What is the impact of using media in improving students' four language skills?	✓		
				b. Did you experience difficulties when designing or using the media to improve the four language skills?	✓		
			10. Using activities that can encourage students' self-confidence in learning English	a. Do you think using activities that can encourage student's self-confidence in learning English is important?	✓		
				b. What kind of activity do you use to encourage students' self-confidence	✓		

				in learning English?				
			11. Using activities that can develop student's social skill	a. What kind of activities that can develop students' social skills that you <u>have</u> experienced?	✓			
				b. Do you experience difficulties when designing an activity that can develop students' social skills?	✓			
		Knowledge about assessment (Ratminingsih, 2020)	1. Developing an assessment tool that fits the learning objectives	a. Do you think choosing an assessment tool that fits the learning objectives is important?	✓			
				b. How can you be sure that the assessment tool fits the learning objectives?	✓			
			2. Using techniques of assessment that according to the ability or type of learning outcomes to be assessed	a. What should be considered when deciding which assessment technique to use?	✓			
				b. Do you use more than one type of assessment	✓			
					one type of assessment technique?			
				3. Creating an assessment instrument that fits with skill achievement criteria	a. What is usually used as a guide in developing assessment instruments?	✓		
			4. Arranging assessment activities make a positive contribution to the students	a. What feedback is given to students after assessing learning outcomes?	✓			
				b. Is arranging assessment activities make a positive contribution to the students?	✓

No	Aspect	Dimension	Indicators	Statement	Response		Comments
					Relevant	Irrelevant	
1	Content Knowledge	Language Awareness (Andrews, 2001)	1. Realizing the importance of correcting grammar mistakes that occur in class	a. Grammar errors that occur in class are important things to be corrected.	✓		
				b. The use of grammar in class is not an important thing to be corrected.	✓		
			2. Realizing the importance of correcting pronunciation, spelling or word choice mistakes that occur in class	a. Mispronunciation, spelling, and word choice are important things to be noticed and corrected	✓		
				b. Mispronunciation, spelling, and word choice can be corrected by the students itself	✓		
		Language Proficiency (Andrews, 2001)	3. Using/speaking English Fluently	a. Intense use of English is important because it can improve speaking fluency in class	✓		
				b. Intense use of English is not important as long as students understand the meaning of the words	✓		
			4. Writing in English on the board/on a document without errors	a. Errors in English writing (documents/whiteboard) need to be considered to ensure clear communication and prevent misunderstandings.	✓		
				b. English errors in writing (documents / whiteboards) do not need to be considered as long as the readers understand the meaning of the text	✓		

2	Pedagogical Knowledge	Knowledge about Curriculum Development (Ratminingsih, 2020)	1. The teacher is able to analyze the learning objectives in the curriculum to compile the syllabus	a. The syllabus is arranged based on the learning objectives that have been analyzed in the curriculum	✓				
				b. Learning objectives are determined independently to arrange the syllabus	✓				
			2. Able to direct learning topics with learning objectives to be achieved	a. The learning topics are directed in accordance with the learning objectives to be achieved.	✓				
				b. The learning topics are developed based on the situation in the classroom.	✓				
			3. Aligning the relationship between one topic and the next topic contained in the curriculum	a. The activities are created by linking the topics taught previously with the topics being discussed	✓				
				b. The activities arranged focus on or	✓				
					curriculum	arranged focus on or only discuss one topic			
			Knowledge about the characteristics of young learners (Ratminingsih, 2020)	1. Trying something new.	a. New things such as using technology as a learning media can help learning activities in classroom	✓			
					b. New things such as using technology as a learning media can reduce student focus when following the learning activities in classroom	✓			
				2. Building knowledge from working with objects or ideas.	a. The objects and circumstances in the surrounding environment that students explore can build new knowledge	✓			
b. The objects and surrounding	✓								

			environment that students explore does not affect the knowledge gained by students			
		3. Learning through direct experience	a. Direct learning activity can help students to understand the concept easily.	✓		
			b. Students will quickly forget their understanding of the material that they have independently obtained	✓		
		4. Learning by listening and repeating.	a. The activities such as listening and repeating can help students improve their English skills	✓		
			b. The activities that only listen to the teacher's explanation can help improve	✓		
			can help improve students' English skills			
		5. Learning when they are motivated	a. Students will learn optimally when they feel interested and motivated in learning activities	✓		
			b. Learning activities must be carried out without considering the condition of students to maximize the study time	✓		
		6. Engaging in a fun learning activities	a. Students can concentrate longer if the classroom atmosphere is enjoyable	✓		
			b. Various learning activities will disturb students' ability to focus	✓		

			7. Learning by associating with previous knowledge.	a. Good learning materials must be related to something familiar and close to students	✓		
				b. The material given must be something which only the teacher knows	✓		
			8. Learning through the environment around them	a. Students will easily understand the material if the material is in accordance with the environment around the students	✓		
				b. Students' knowledge in learning English is not affected by the use of objects around them	✓		
		Knowledge about lesson plan (Ratminingsi	1. Making a lesson plan that corresponds	a. The lesson plan arranged is based on the learning objectives that must	✓		
		h, 2020)	with the learning objectives to be achieved	be achieved			
				b. Learning objectives have no effect on making lesson plans	✓		
			2. Designing effective learning activities	a. Learning activities can run well if they are designed effectively	✓		
				b. Learning activities can be designed by adjusting the situations that occur in class	✓		
			3. Arranging student-centered activities	a. The learning activities must be student-centered	✓		
				b. The learning activities are fully held by the teacher	✓		
			4. Including media and technology in the learning activity	a. The learning activities should include the use of media and technology	✓		
				b. The learning activity including media and	✓		

				technology has no effect on learning activity				
	The use of learning strategies for young learners (Ratminingsih, 2020)	1. Teaching by using visual tools	a.	Attractive and varied visual media could be used to attract students' attention	✓			
b.			The powerpoint used only contains the material to be conveyed without being combined with interesting animations or images	✓				
2. Teaching by using media that can be explored		a.	The student's language skill can be improved by using various learning media which gives students space to explore	✓				
		b.	Many difficulties are encountered by the teacher when developing learning	✓				
					activities using visual media explored by students			
3. Giving context/situation		a.	English learning can be more useful by using topics related to students' daily lives	✓				
	b.	The students are asked to memorize formulas or grammar rules according to the material being discussed	✓					
4. Doing contextual activity	a.	The learning activities carried out are related to real events experienced by students	✓					
	b.	The students are asked to write on student's book and mention again the vocabulary that has	✓					

		been given by the teacher			
5. Doing activities that are motivating and interesting	a.	The students are invited to do activities they like such as moving, singing, or playing so that students are interested in learning	✓		
	b.	The students are asked to take notes and memorize the material presented	✓		
6. Stimulating active student participation	a.	The learning activities are designed to provide space for students to explore directly, so that students can actively participate	✓		
	b.	The learning activities are designed only for making students focus on doing	✓		
		focus on doing assignments in the book			
7. Giving or applying a game in the learning process	a.	The game given or applied in the classroom can create a fun learning environment	✓		
	b.	There are many difficulties when managing the class when students are given to play game	✓		
8. Creating a fun learning environment (by using a joke or song)	a.	Learning activities are made by involving properties or objects around the students	✓		
	b.	Learning activities still continue according to the allocation of learning even though students are no longer motivated in learning	✓		

			9. Improving the four language skills by using appropriate learning media	a. Learning media are used in learning activities to practice their language skills	✓		
				b. There are many difficulties to use learning media to improve their language skills	✓		
			10. Using activities that can encourage students' self-confidence in learning English	a. Students' self-confidence are encouraged by giving them activities that can make them perform in the front of the class	✓		
				b. The students are allowed to mock other students who does any mistakes in English	✓		
			11. Using activities that can develop student's social skill	a. Study groups are created of heterogeneous students so that they can help each other in learning	✓		
				b. The students are allow to choose friends they feel comfortable studying in groups	✓		
		Knowledge about assessment (Ratminingsih, 2020)	1. Developing an assessment tool that fits the learning objectives	a. The assessment tool are chosen in order to provide a learning experience for students in accordance with the learning objectives	✓		
				a. Same assessment tools are applied to all materials	✓		
			2. Using techniques of assessment that according to the ability or type of learning	a. Assessment techniques that are appropriate to the learning objectives can be used to know student learning achievement.	✓		

			outcomes to be assessed	b. The assessment technique chosen is adjusted to the situation in the classroom	✓		
			3. Creating an assessment instrument that fits with skill achievement criteria	a. The assessment instrument used can describe the skills that have been achieved by students	✓		
				b. One instrument method is applied for all skills achieved	✓		
			4. Arranging assessment activities make a positive contribution to student learning achievement	a. Assessment activities are designed to give students full access to be able to find out their abilities	✓		
				b. Assessment activities are designed in traditional way (multiple choice/true or false) to provide reports on students's learning progress	✓

QUESTIONNAIRE

Teacher 1

No	Pernyataan	Respon				
		1	2	3	4	5
1.	Kesalahan grammar yang terjadi di kelas merupakan hal yang penting untuk dikoreksi					✓
2.	Penggunaan bahasa Inggris yang intens itu penting karena dapat meningkatkan kelancaran berbicara di kelas					✓
3.	Salah pengucapan, ejaan, dan pemilihan kata merupakan hal yang penting untuk diperhatikan dan dikoreksi					✓
4.	Kesalahan bahasa Inggris dalam penulisan (dokumen/papan tulis) tidak perlu diperhatikan selama pembaca memahami arti teks tersebut					✓
5.	Dalam menyusun silabus, tujuan pembelajaran ditentukan secara mandiri				✓	
6.	Kesalahan pengucapan, ejaan, dan pemilihan kata dapat diperbaiki sendiri oleh siswa		✓			
7.	Penggunaan tata Bahasa (grammar) di kelas bukanlah hal yang penting untuk dikoreksi	✓				
8.	Penggunaan bahasa Inggris yang intens tidak penting selama siswa memahami maksud dari suatu kata	✓				
9.	Kesalahan dalam penulisan bahasa Inggris (dokumen/papan tulis) perlu diperhatikan untuk memastikan komunikasi yang jelas dan mencegah kesalahpahaman					✓
10.	Kegiatan dibuat dengan menghubungkan topik yang diajarkan sebelumnya dengan topik yang sedang dibahas					✓
11.	Topik pembelajaran diarahkan sesuai dengan tujuan pembelajaran yang ingin dicapai					✓

No	Pernyataan	Respon				
		1	2	3	4	5
12.	Silabus disusun berdasarkan tujuan pembelajaran yang telah dianalisis dalam kurikulum				✓	
13.	Kegiatan yang disusun focus pada satu topik atau hanya membahas satu topik saja				✓	
14.	Objek dan keadaan di lingkungan sekitar yang dieksplorasi/dijelajah oleh siswa dapat membangun pengetahuan baru					✓
15.	Hal-hal baru seperti penggunaan teknologi sebagai media pembelajaran dapat mengurangi fokus siswa saat mengikuti kegiatan pembelajaran di kelas		✓			
16.	Kegiatan yang hanya mendengarkan penjelasan guru dapat membantu meningkatkan kemampuan bahasa Inggris siswa				✓	
17.	Objek dan lingkungan sekitar yang dieksplorasi/dijelajah oleh siswa tidak mempengaruhi pengetahuan yang diperoleh siswa	✓				
18.	Topik pembelajaran dikembangkan berdasarkan situasi di dalam kelas				✓	
19.	Hal-hal baru seperti pemanfaatan teknologi sebagai media pembelajaran dapat membantu kegiatan pembelajaran di kelas					✓
20.	Siswa akan belajar secara optimal ketika mereka merasa tertarik dan termotivasi dalam kegiatan pembelajaran					✓
21.	Kegiatan pembelajaran secara langsung dapat membantu siswa untuk memahami konsep dengan mudah					✓
22.	Kegiatan seperti mendengarkan dan mengulang dapat membantu siswa meningkatkan kemampuan bahasa Inggris mereka					✓

No	Pernyataan	Respon				
		1	2	3	4	5
23.	Siswa dapat berkonsentrasi lebih lama jika suasana kelas menyenangkan					✓
24.	Siswa akan cepat lupa terhadap pemahamannya tentang materi yang telah diperolehnya secara mandiri			✓		
25.	Kegiatan pembelajaran harus dilaksanakan tanpa mempertimbangkan kondisi siswa untuk memaksimalkan waktu belajar	✓				
26.	Materi yang diberikan haruslah sesuatu yang hanya diketahui oleh guru saja	✓				
27.	Kegiatan pembelajaran yang bervariasi akan mengganggu kemampuan siswa untuk fokus	✓				
28.	Pengetahuan siswa dalam belajar bahasa Inggris tidak terpengaruh oleh penggunaan benda-benda di sekitar mereka	✓				
29.	RPP disusun berdasarkan tujuan pembelajaran yang harus dicapai					✓
30.	Kegiatan pembelajaran sepenuhnya dipegang oleh guru			✓		
31.	Kegiatan pembelajaran dapat berjalan dengan baik jika dirancang secara efektif					✓
32.	Bahan pembelajaran yang baik harus berkaitan dengan sesuatu yang familiar dan dekat dengan siswa				✓	
33.	Siswa akan mudah memahami materi jika materi tersebut sesuai dengan lingkungan sekitar mereka					✓
34.	Kegiatan pembelajaran harus berpusat pada siswa					✓
35.	Tujuan pembelajaran tidak berpengaruh terhadap pembuatan RPP	✓				
36.	Kegiatan pembelajaran dapat dirancang dengan menyesuaikan situasi yang terjadi di kelas					✓

No	Pernyataan	Respon				
		1	2	3	4	5
37.	Kemampuan berbahasa siswa dapat ditingkatkan dengan menggunakan media pembelajaran yang bervariasi yang memberikan ruang bagi siswa untuk bereksplorasi					✓
38.	Kegiatan pembelajaran harus mencakup penggunaan media dan teknologi					✓
39.	Media visual yang menarik dan bervariasi dapat digunakan untuk menarik perhatian siswa					✓
40.	Siswa diminta untuk menghafalkan rumus atau aturan tata bahasa sesuai dengan materi yang sedang dibahas				✓	
41.	Siswa diminta untuk menulis di buku siswa dan menyebutkan kembali kosa kata yang telah diberikan oleh guru				✓	
42.	Siswa diminta untuk mencatat dan menghafal materi yang disampaikan				✓
