ABSTRAK

Penelitian ini bertujuan mendeskripsikan dan menjelaskan (1) karakteristik, (2) validitas, (3) kepraktisan, (4) dan keterbacaan lembar kerja peserta didik berbasis *Project Based Learning* berorientasi karakter profil pelajar Pancasila pada materi klasifikasi makhluk hidup kelas VII SMP. Jenis penelitian ini merupakan penelitian pengembangan (*research and development*) dengan model ADDIE dan dibatasi pada tahap pengembangan. Subjek penelitian meliputi subjek uji validitas terdiri atas 2 dosen ahli Pendidikan IPA, subjek uji kepraktisan terdiri atas 5 orang guru IPA, dan subjek uji keterbacaan terdiri atas 10 orang siswa. Data yang diperoleh berupa data hasil uji validitas, uji kepraktisan, uji keterbacaan, dan karakteristik produk. Karakteristik LKPD sesuai sintaks model *Project Based Learning*, materi klasifikasi makhluk hidup, dan memuat aktivitas belajar yang dapat menanamkan nilai karakter profil pelajar Pancasila. Data hasil penelitian dianalisis secara deskriptif. Pengumpulan data dilakukan dengan menggunakan observasi, studi dokumentasi, dan angket. Hasil uji validasi mendapatkan skor rata-rata 1,00 dengan kualifikasi sangat valid. Hasil uji kepraktisan mendapat skor rata-rata 3,5 dengan kualifikasi sangat praktis. Hasil uji keterbacaan mendapat skor rata-rata 3,65 dengan kualifikasi sangat terbaca. Berdasarkan hasil uji validitas, kepraktisan, dan keterbacaan lembar kerja peserta didik berbasis *Project Based Learning* berorientasi karakter profil pelajar Pancasila pada materi klasifikasi makhluk hidup kelas VII SMP dinyatakan valid, praktis, dan terbaca sehingga dapat dilanjutkan pada tahap berikutnya yaitu uji keefektifan.

Kata kunci: LKPD, *Project Based Learning*, Nilai Karakter Profil Pelajar Pancasila

ABSTRACT

This study was aimed to described and explained (1) the characteristics, (2) validity, (3) practicality, (4) and readability of Project Based Learning based on student worksheets or character-oriented profiles Pancasila on material classification of living things seven grade SMP. This type of research was development research (R&D) used the ADDIE development model and was limited to the development stage. The subjects of this studied included validity test subjects consisting of 2 lecturers, practicality test subjects consisting of 5 science teachers, and readability test subjects consisting of 10 students. The data obtained was in the form of data on the results of validity tests, practicality tests, readability tests, and product characteristics. The characteristics of LKPD were in accordance with the syntax of the Project Based Learning model, material for classification of living things, contain learning activities that can instill the character values in student profile Pancasila. Research data were analyzed descriptively. Data collection was carried out used observation, documentation study, and questionnaire instrument. The results of the validation test get an average score of 1.00 with very valid qualification category. The results of the practicality test get an average score of 3.5 with very practical qualification category. The results of the readability test get an average score of 3.65 with very legible qualification category. Based on the results of the validity, practicality, and readability tests of students based on Project Based Learning, character-oriented profiles Pancasila on material classification of living things seven grade SMP are declare valid, practical, and legible.

Keywords: *LKPD, Project Based Learning, Character Orientated Profile Pancasila*
