ABSTRAK

Tujuan dari penelitian ini adalah untuk mengetahui pengaruh model pembelajaran Example Non Example terhadap hasil belajar siswa kelas XI teknik pemesinan SMK Negeri 1 Denpasar. Penelitian ini merupakan jenis penelitian eksperimen dengan pendekatan kuantitatif. Penelitian ini dilakukan dengan mengamati hasil belajar sebelum penerapan model pembelajaran Example Non Example pada siswa kelas XI SMK Negeri 1 Denpasar dengan nilai rata-rata di bawah standar KKM, yaitu berkisar antara 70 - 78. Setelah melihat keadaan tersebut, peneliti melanjutkan dengan memberikan perlakuan (Treatment) dengan menerapkan model Pembelajaran Example Non Example. Untuk melihat hasil belajar setelah penerapan model ini, yaitu dengan memberikan tes sebanyak 40 soal pilihan ganda kepada siswa. Nilai rata-rata hasil belajar mata pelajaran Teknik Pemesinan Dasar siswa kelas XI SMK Negeri 1 Denpasar setelah penerapan model pembelajaran Example Non Example adalah 79,8. Disimpulkan bahwa penerapan model pembelajaran Example Non Example memberikan pengaruh berupa peningkatan hasil belajar siswa pada mata pelajaran Pekerjaan Mekanik Dasar di kelas XI SMK Negeri 1 Denpasar.

Kata kunci: *example non-example*, keaktifan, hasil belajar, dasar-dasar pemesinan

***THE EFFECT OF EXAMPLE NON EXAMPLE LEARNING MODEL ON
BASIC LEARNING OUTCOMES - BASIC MACHINING CLASS XI
STUDENTS OF MECHANICAL ENGINEERING AT SMK NEGERI 1
DENPASAR***

ABSTRACT

The purpose of this study was to determine the effect of the Example Non Example learning model on the learning outcomes of class XI students of machining engineering at SMK Negeri 1 Denpasar. This research is a type of experimental research with a quantitative approach. This research was conducted by observing the learning outcomes before the application of the Example Non Example learning model to class XI students of SMK Negeri 1 Denpasar with an average score below the KKM standard, which ranged from 70 - 78. After seeing this situation, the researcher continued to provide treatment (Treatment) by applying the Example Non Example Learning model. To see the results of the study after the application of this model, namely by giving a test of 40 multiple choice questions to students. The average value of the learning outcomes of Basic Mechanical Engineering class XI students of SMK Negeri 1 Denpasar after the application of the Example Non Example learning model is 79.8. It is concluded that the application of the Example Non Example learning model has an influence in the form of an increase in student learning outcomes in Basic Mechanical Engineering subjects in class XI of SMK Negeri 1 Denpasar.
