Program Studi Pendidikan Ekonomi

ABSTRAK

Penelitian ini memiliki tujuan mengujikan (1) pengaruh sikap kewirausahaan terhadap minat berwirausaha siswa dalam mengelola *teaching factory* Di SMK Negeri 1 Singaraja, (2) berapa besar pengaruh sikap kewirausahaan bagi minat berwirausaha siwa dalam mengelola *teaching factory* Di SMK Negeri 1 Singaraja. Studi inipun berlangsung di SMK Negeri 1 Singaraja, dengan jumlah sampel sebanyak 83 siswa dari perolehan rumus slovin. Teknik sampling yang dipergunakan yakni probability sampling. Jenis studi ini termasuk kausalitas melalui pendekatan kuantitatif dan metode pengambilan data mempergunakan kuisisioner dan dianalisiskan melalui penggunaan analisis deskriptif dan analisis regresi linier sederhana. Hasil temuan memberi bukti bahwasanya sikap (X) mempunyai signifikansi sebanyak $0,000 < 0,05$, karenanya sikap menyumbang pengaruh positif dan signifikan bagi minat berwirausaha siswa di SMK N 1 Singaraja. Dibuktikan melalui besaran pengaruhnya, besaran angka koefisien determinasi (R Square) 0,878 sama dengan 87%. Hal inipun bermakna sikap kewirausahaan mempengaruhi variabel minat berwirausaha sebanyak 87% dan sisanya terjadi disebabkan variabel lain yang tidak diujikan.

Kata kunci: Sikap, Minat, Kewirausahaan, *Teaching Factory*.

ABSTRACT

This study aims to test (1) the effect of entrepreneurial attitudes on students' interest in entrepreneurship in managing the teaching factory at SMK Negeri 1 Singaraja, (2) how much influence entrepreneurial attitudes have on students' interest in entrepreneurship in managing teaching factories at SMK Negeri 1 Singaraja. Even this study took place at SMK Negeri 1 Singaraja, with a total sample of 83 students from the acquisition of the slovin formula. The sampling technique used is probability sampling. This type of study includes causality through a quantitative approach and data collection methods using questionnaires and analyzed through the use of descriptive analysis and simple linear regression analysis. The findings provide evidence that attitude (X) has a significance of $0.000 < 0.05$, therefore attitude contributes a positive and significant influence to students' interest in entrepreneurship at SMK N 1 Singaraja. Evidenced by the magnitude of the influence, the magnitude of the coefficient of determination (R Square) 0.878 is equal to 87%. This also means that entrepreneurial attitudes affect the variable interest in entrepreneurship as much as 87% and the rest occurs due to other variables that are not tested.

Keywords: Attitude, Interest, Entrepreneurship, Teaching Factory.
