ABSTRAK

Penelitian ini bermaksud untuk: (1) mengembangkan media pembelajaran berbasis video tutorial pada pengaplikasian nail art gel dengan teknik *french manicure* di SMK Pariwisata Triatma Jaya Badung, (2) mengetahui kelayakan media pembelajaran berbasis video tutorial pada pengaplikasian nail art gel dengan teknik *french manicure* di SMK Pariwisata Triatma Jaya Badung. Dalam penelitian ini, dipakai metode penelitian dan pengembangan (R&D) dengan menerapkan model ADDIE sebagai landasan metodologi. Instrumen yang dipakai untuk mengumpulkan data dalam penelitian ini adalah kuesioner berbentuk angket. Penelitian ini menerapkan teknik analisis data deskriptif kuantitatif. Pengujian media video dalam penelitian ini melibatkan ahli media, ahli materi dan responden oleh 25 siswa kelas XI di SMK Pariwisata Triatma Jaya Badung. Hasil penelitian menunjukkan bahwa (1) Video tutorial pada pengaplikasian *nail art gel* dengan teknik *french manicure* yang dikembangkan memakai model ADDIE melalui beberapa tahapan dalam proses pembuatannya seperti: a) Analysis, kebutuhan dan analisis materi. b) Design, perancangan *storyboard* dan *scrip*. c) Development yaitu produksi media video berdasarkan desain yang sudah dibuat. d) Implementation melakukan uji coba produk kepada siswa. e) Evaluation yaitu evaluasi terhadap media video yang sudah dibuat. (2) Kelayakan video tutorial pengaplikasian nail art gel dengan teknik french manicure dinyatakan sangat layak dipakai dalam mendukung proses pembelajaran pada materi french manicure di SMK Pariwisata Triatma Jaya Badung. Dibuktikan dengan hasil kelayakan dari 25 siswa terhadap video tutorial pengaplikasian *nail art gel* dengan teknik *french manicure* yang membisa penilaian adalah “sangat layak” dengan persentase nilai sebesar 87,7%.

Kata kunci : *media pembelajaran, video tutorial, teknik french manicure*

**DEVELOPMENT OF LEARNING MEDIA BASED ON VIDEO TUTORIALS
ON THE APPLICATION OF NAIL ART GEL WITH FRENCH
MANICURE TECHNIQUES**

ABSTRACT

This research intends to: (1) develop video tutorial-based learning media on the application of nail art gel with french manicure techniques at SMK Pariwisata Triatma Jaya Badung, (2) find out the feasibility of video tutorial-based learning media on the application of nail art gel with french manicure techniques at SMK Pariwisata Triatma Jaya Badung. In this study, research and development (R&D) methods were used by applying the ADDIE model as the foundation of the methodology. The instrument used to collect data in this study was a questionnaire in the form of a questionnaire. This study applied quantitative descriptive data analysis techniques. Video media testing in this study involved media experts, material experts, and respondents by 25 class XI students at SMK Pariwisata Triatma Jaya Badung. The results of this study indicate that (1) Video tutorial on the application of nail art gel with the french manicure technique developed using the ADDIE model through several stages in the manufacturing process such as: a) Analysis, needs and material analysis. b) Design, storyboard and scrip design. c) Development, namely the production of video media based on designs that have been made. d) Implementation conducts product trials to students. e) Evaluation, namely the evaluation of video media that has been made. (2) The feasibility of video tutorials on applying nail art gel with the french manicure technique is declared very feasible to be used in supporting the learning process of french manicure material at SMK Pariwisata Triatma Jaya Badung. Evidenced by the feasibility results of 25 students on video tutorials on applying nail art gel with the French manicure technique which received a "very feasible" assessment with a percentage of scores of 87.7%.

Keywords: learning media, video tutorials, french manicure techniques.
