Author Biography

I am Ketut Serli Winarti, born in Denpasar on December 12, 2001. Since childhood, I have had a deep interest in art. This interest grew along with my educational journey. After completing my primary and secondary education in Denpasar, I then continued my studies at the university level at Ganesha University of Education, majoring in English Education. During my time at university, I became increasingly interested in exploring more in the field of Education. At the same time, I also began to understand the importance of research in developing understanding and knowledge in the field. This is what prompted me to write a thesis as part of completing my studies at university. This thesis is entitled Taboo in Balinese Language Spoken in Peguyangan Village. In writing this thesis, I aim to identify taboo words, as well as to contribute to the development of knowledge in the field of Linguistics. This research was conducted using qualitative research methods and utilizing relevant literature sources and related data. I feel very lucky to be able to complete this thesis thanks to the help and support of various parties, especially my supervisor, and also my peers who always provide support and motivation during this research process. I hope that the results of this thesis can provide meaningful benefits and contributions to the development of knowledge in the field of Linguistics, as well as being an initial step that opens up opportunities to engage in further research and exploration in the future. Such is my brief biography as the author of this thesis. Thank you for your attention and support in this research journey.
