Diterima oleh Panitia Ujian Fakultas Matematika dan Ilmu Pengetahuan Alam
Universitas Pendidikan Ganesha
guna memenuhi syarat-syarat untuk mencapai gelar sarjana Pendidikan

Pada:

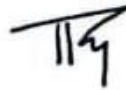

Hari : Selasa

Tanggal : 20 Februari 2024

Mengetahui,

Ketua Ujian,

Sekretaris Ujian,

Dr. I Wayan Puja Astawa, S.Pd., M.Stat.Sci.
NIP. 19690116 199403 1 001

Prof. Dr. Ni Ketut Rapi, M.Pd.
NIP. 19630830 198803 2 002

Mengesahkan

Dekan Fakultas Matematika dan Ilmu Pengetahuan Alam,

Dr. I Wayan Sukra Warpala, S.Pd., M.Sc.

NIP. 19671013 199403 1 001

PERNYATAAN

Dengan ini saya menyatakan bahwa karya tulis yang berjudul "Synthesis and Characterization of Magnetite (Fe_3O_4) Nanomaterials in Tianyar Iron Sand Using Co-precipitation Method with pH Variations" beserta seluruh isinya adalah benar-benar karya sendiri dan saya tidak melakukan penjiplakan dan pengutipan dengan cara-cara yang tidak sesuai dengan etika yang berlaku dalam masyarakat keilmuan. Atas pernyataan ini, saya siap menanggung resiko/sanksi yang dijatuhkan kepada saya apabila kemudian hari ditemukan adanya pelanggaran atas etika keilmuan dalam karya saya ini atau ada klaim terhadap karya saya ini.

Singaraja, 19 Februari 2024

Yang membuat pernyataan,

Ni Putu Devi Kristina

ACKNOWLEDGEMENT

The author is grateful to the author for Ida Sang Hyang Widhi Wasa that the author has completed the manuscript entitled “**Synthesis and Characterization of Magnetite (Fe₃O₄) Nanomaterials in Tianyar Iron Sand Using Co-precipitation Method with pH Variations**” can be completed on time. This thesis is made to qualify for a bachelor's degree in the Undiksha Physics Education Studies Program. The completion of this script is not without the help of various parties. Therefore, on this occasion, the author expresses the gratitude to all those who have helped.

1. Prof. Dr. Ni Ketut Rapi, M.Pd. is the Coordinator of the Physics Education Study Program on the motivation and facilities provided so that the author can complete the study with the plan.
2. I Gede Arjana, S.Pd., M.Sc., RWTH as Advisor I who has organized, conditioned the conduct of research, providing correction and motivation during the research process.
3. Dr. Putu Yasa, M.Si. as Advisor II who has given instructions, directions, and corrections during the research process.
4. Prof. Ting-Yu Liu is a Advisor who has given directions and facilities in the conduct of research during at the MCUT Taiwan.
5. Dr. Kuan-Syun Wang and Dr. Yun-Chu Chen act as Assistant Professors who provide direction and guidance in conducting research at the Taiwan MCUT Laboratory.
6. Putu Widiarini, S.Pd., M.Sc. as Academic Advisor who have provided direction, advice, guidance and motivation during the course of lectures.
7. The teaching staff in the area of the Physics Education Studies Program share knowledge and insights as well as guidance from before this research was launched until the results of this research were.

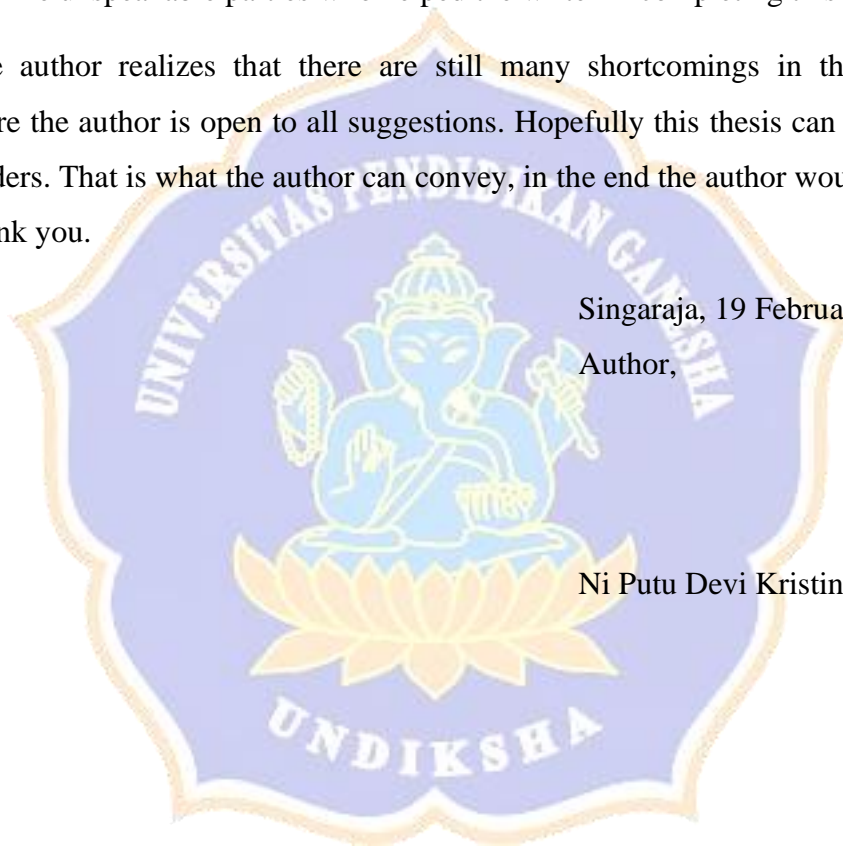

8. A fellow student of Physics Education and colleagues at the MCUT Taiwan Laboratory who have been willing to share knowledge, experience and information during the course of their studies until the research is.
9. Parents and families who always pray and support for the smooth study of the writer.
10. Ni Luh Ayu Ardi Lestari, Ni Gusti Ayu Mutiara Sandhy, Putri Kornelia, I Wayan Arta Gunarsa, were colleagues who always gave help, direction, advice, and motivation during the course of study until this research was.
11. The unspeakable parties who helped the writer in completing this thesis.

The author realizes that there are still many shortcomings in this thesis, therefore the author is open to all suggestions. Hopefully this thesis can be useful for readers. That is what the author can convey, in the end the author would like to say thank you.

Singaraja, 19 Februari 2024

Author,

Ni Putu Devi Kristina

ABSTRACT	
ACKNOWLEDGEMENT	i
List of Contents	iii
List of Figure	v
List of Table	vii
List of Appendix	viii
CHAPTER I	1
1.1 Background	1
1.2 Problem Limitations	4
1.3 Problem Formulation	5
1.4 Research Objectives	5
1.5 Benefits of Research	5
CHAPTER II	7
2.1 Nanomaterials	7
2.2 Iron Sand	9
2.3 Crystal	10
2.4 Magnetite (Fe₃O₄)	16
2.4.1 Properties of Magnetite (Fe₃O₄)	17
2.5 Magnetism	20
2.6 Synthesis	29
2.7 Co-precipitation Method	31
2.8 pH	33
2.9 Characterization	36
2.9.1 XRD	36
2.9.2 SEM-EDS	39
CHAPTER III	42
3.1 Types of Research	42
3.2 Time and Place of Research	42
3.2.1 Research Time	42
3.2.2 Research Place	42
3.3 Research Variables	42
3.3.1 Independent Variables	42

3.3.2	Dependent Variables	43
3.3.3	Control Variables	43
3.4	Tools and Materials	43
3.5	Data Capture Techniques.....	45
3.5.1	Extraction of Tianyar Iron Sand.....	45
3.5.2	Synthesis of Fe ₃ O ₄ Using the Co-Precipitation Method	45
3.5.3	Sample Characterization	46
3.6	Data Analysis.....	47
3.7	Diagram of Research Flow	48
CHAPTER IV		48
4.1	Results of Research.....	49
4.1.1	Synthetic Results of Nanomaterials Magnetite (Fe ₃ O ₄).....	49
4.1.2	Characterization Results Using XRD.....	50
4.1.3	Characterization Results Using SEM.....	54
4.1.4	EDS Characterization Results	56
4.2	Discussions.....	59
4.2.1	Discussing Synthetic Results	59
4.2.3	Discussing SEM Characterization Results.....	61
4.2.4	Discussing EDS Characterization Results	62
CHAPTER V		65
5.1	Summary	65
5.2	Suggestion	65
