ABSTRACT

This research has four main objectives, namely (1) describing students' loyalty to the Indonesian language at SMK Negeri 1 Praya which is reflected in the Facebook caption, (2) describing the awareness of students at SMK Negeri 1 Praya towards Indonesian language norms which is reflected in the Facebook caption, (3) describe the pride of students at SMK Negeri 1 Praya in speaking Indonesian which is reflected in the Facebook caption, and (4) describe the factors that influence the Indonesian language attitudes of students at SMK Negeri 1 Praya. This study used descriptive qualitative method. The data collection stages used in this research are observation, documentation and interviews. The results of the research showed that students' dominant language attitudes were classified as negative, namely 63 captions showed negative language attitudes regarding loyalty to language. Regarding awareness of language norms, of the 39 captions that the author studied, there were 9 captions with positive attitudes and 30 with negative attitudes. Meanwhile, regarding pride in the Indonesian language, of the 15 respondents there were 6 students who had a positive attitude and 9 students who had a negative attitude.

Keywords: Facebook caption, language attitude
