At the end of this research, the results and conclusions were obtained that the Buleleng District Prosecutor's Office has preventive measures, including the prosecutor entering school and the prosecutor greeting. The results of a series of legal counseling activities for Prosecutors Entering School carried out by the Buleleng District Prosecutor's Office, students were able to understand the many impacts of delinquency that occurred in juvenile age and understand the justice system for juveniles who break the law. The Prosecutor's Greeting carried out by the Buleleng District Prosecutor's Office on Giri FM Radio on Tuesday, September 26 2023, was carried out live with the topic/theme, namely "Preventing Sexual Violence in Children". Repressive Efforts by the Buleleng District Prosecutor's Office to provide severe punishments to perpetrators of child rape as a deterrent effect and to carry out restitution which is regulated in Law Number 12 of 2022 on Crimes of Sexual Violence. However, these efforts are still not effective because cases of child rape have reappeared and are still increasing. Head of the Pre-Prosecution Sub-Section for General Crimes, I Made Heri Permana Putra, S.H., is of the opinion that the problem of child rape is increasing because of the internet, the sophisticated development of information and technology which means anyone can get it directly and quickly via smartphone or gadget, making someone get more pornography, quickly and easy to access.*
