Abstrak

Penelitian ini bertujuan menguji pengaruh motivasi belajar dan lingkungan teman sebaya pada hasil belajar siswa jurusan IIS di SMA Laboratorium Undiksha. Populasi pada temuan ini adalah siswa kelas XI dan kelas XII jurusan IIS di SMA Laboratorium Undiksha. Pada temuan ini, sampel yang akan diambil yaitu semua siswa jurusan IIS di SMA Laboratorium Undiksha yang berjumlah 42 siswa. Teknik untuk mengambil sampel dilaksanakan melalui teknik sampling jenuh. Data ini pun dikumpulkan dengan cara menyebarkan kuesioner. Teknik analisis pada studi ini menggunakan analisis regresi linier berganda dengan uji hipotesis dengan parsial (uji t) dan simultan (uji F). Studi ini telah memberikan hasil bahwasanya ada pengaruh parsial dan simultan motivasi belajar dan lingkungan teman sebaya bagi hasil belajar ekonomi siswa jurusan IIS di SMA Laboratorium Undiksha.

Abstract

This research aims to examine the influence of learning motivation and peer environment on the learning outcomes of students majoring in IIS at Undiksha Laboratory High School. The population in these findings is class XI and class XII students majoring in IIS at Undiksha Laboratory High School. Based on these findings, the samples that will be taken are all students majoring in IIS at Undiksha Laboratory High School, totaling 42 students. The technique for taking samples is carried out using a saturated sampling technique. This data was collected by distributing questionnaires. The analysis technique in this study uses multiple linear regression analysis with partial (t test) and simultaneous (F test) hypothesis testing. This study has provided results that there is a partial and simultaneous influence of learning motivation and peer environment on the economics learning outcomes of students majoring in IIS at Undiksha Laboratory High School.
