ABSTRACT

This research explains in depth the strategy for dealing with criminal acts of narcotics abuse through the Bersinar Village (clean from drugs) program in Tukadmungga Village based on Law Number 35 of 2009. The goals of this examination are (1) To dissect the adequacy of the Bersinar Town (Medication Clean) Program in Conquering Opiates Wrongdoing in Tukad Mungga Town, (2) To break down the obstructions experienced in carrying out the Bersinar Town (Clean Medications) program in Tukad Mungga Town. The kind of examination utilized is observational juridical exploration with enlightening exploration attributes. The area of this exploration was done in Tukadmungga Town. The information assortment procedures utilized were record concentrate on strategies, perception and meetings. The testing method utilized was Nonprobability Inspecting and the subject assurance utilized Purposive Examining Procedure, a subjective information handling and investigation strategy. The examination results show that the Sparkling Town (without drug) program in Tukadmungga town, Buleleng Rule has been actually executed with the genuine change in the Sparkling Town program being the arrangement of Against Medication Volunteers to make inspiration and harmony among the local area in Tukadmungga Town. The motivation for having volunteers in the village includes the increasing sensitivity and enthusiasm of the young generation in the village to fight narcotics. The obstacles experienced when forming a shining village are the busyness of the community in implementing the Shining Village programs, some of the visiting community who live in the village are less afraid of distributing and abusing narcotics, insufficient anti-drug volunteers, and an insufficient budget to run it. several village programs shine.
