10. Other parties that I cannot mention one by one, thank you for all the help and support that has been given, both directly and indirectly.

This study explores the use of AI-based learning applications, specifically the Cake application, which is implemented using classroom action research methods. Talk about how to improve pronunciation skills, how Cake's application evaluate from the Triple E Framework, and how students expand its app outside the school environments.

The researcher realizes that the written work still contains shortcomings and errors. Therefore, the author apologizes profusely for any errors that still exist. The author always accepts criticism and suggestions from readers regarding ways to improve the quality of his writing in the future. Finally, I hope this scientific work is useful for readers, especially those involved in the field of English education.
