## **APPENDIX 1: READING INTEREST SCALE VALIDATION**

### **RESEARCH INSTRUMENTS VALIDATION**

#### **A. READING INTEREST**

##### **Introduction**

The general objectives of the proposed research are to analyze the relationships among the students' reading interest, reading self-efficacy, and their reading competency in Sekolah Menengah Pertama Negeri in Singaraja. More specifically, the current research is objective at: 1) analyzing the students' reading interest, reading self-efficacy, and their reading competency in Sekolah Menegah Pertama Negeri 5 Singaraja, and 2) multiple relationships of reading interest and reading self-efficacy to the eighth grade students' reading competency on the English descriptive texts and English recount texts in Sekolah Menengah Pertama Negeri 5 Singaraja. Prior to data collection, the instruments are validated. The reading interest, reading self-efficacy, reading competency are validated theoretically on reliability and validity through **expert judgements**. The reading competency test is validated empirically for item difficulty / facility (IF). There are three instruments that will be used, namely 1) Reading Interest Scale, 2) Reading Self-Efficacy Scale, and 3) Reading Competency Test. Those instruments will be validated on its a) Content Validity, that is the consistence between indicators and their descriptors; b) Reliability, that is the consistency between the indicators, descriptors and the items

##### **Reading Interest Scale**

Reading interests are indicated by six indicators, namely: 1) pleasure, 2) focusing attention, 3) time use, 4) motivation, 5) emotional, 6) effort (Crow and Crow, 1956). Pleasure is a feeling of enjoyment in determining the main ideas of descriptive and recount texts. Focusing attention that is an interest to concentrate in determining the specific ideas of descriptive and recount texts. Time Use is an interest of involvement in determining the textual references in descriptive and recount texts. Motivation describes an interest to motivated in understanding the word meanings in descriptive and recount texts. Emotional is a feeling of excitement in determining the main ideas of descriptive and recount texts. Effort refers to an interest to strive in determining the complex specific ideas of descriptive and recount texts. The instrument that is used to measure reading interest is a scale adapted from Crow and Crow

(1956). In order to ensure reliability and validity of the Reading Interest Scale, the instrument's blue print should be judged by the experts in order to be used in data collection.

**a) Reading Interest Scale's Content Validity**

According to Crow and Crow (1956, p.17) as cited in Fadliyatis (2015, p. 14) proposed six indicators and descriptors of reading interest. Please give your judgement or your agreement with the proposed indicators by crossing **Agree** or **Disagree** independently to ensure **the content validity of the reading interest scale** in the following column. **Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree;4=strongly agree.**

Indicators	Descriptors	Score Judgement			
		1	2	3	4
Pleasure	Pleasure is a feeling of enjoyment in reading a descriptive text and a recount text.				
Focusing attention	Focusing Attention is an interest to concentrate in reading a descriptive text and a recount text.				
Time use	Time Use is an interest of involvement in reading a descriptive text and a recount text.				
Motivation	Motivation an interest to motivated in reading a descriptive text and a recount text.				
Emotion	Emotion is a feeling of excitement in reading a descriptive text and a recount text.				
Effort	Effort is an interest to strive when reading a descriptive and a recount text.

### b) Reading Interest Scale's Reliability

Crow and Crow (1956, p.17) proposed six indicators and descriptors of reading interest.

Please give your judgement or your agreement with the proposed indicators, descriptors, and the corresponding items by crossing **appropriate score** independently to ensure **the reliability of the reading interest scale** in the following column. **Note the score meanings are: 1=very irrelevant; 2=irrelevant; 3=relevant; 4=very relevant.**

Indicators	Descriptors	Reading Interest Items	Score Judgement			
			1	2	3	4
Pleasure	Pleasure is a feeling of enjoyment in reading a descriptive text and a recount text.	1. I am pleased that I could determine the main idea of a descriptive text.				
		2. I am pleased that I could complete the main idea of a descriptive text.				
		3. I am pleased that I could add the main idea of a descriptive text.				
		4. I am pleased that I could summarize the main idea of a recount text.				
		5. I am pleased that I could differentiate the main idea of a recount text.				
		6. I am pleased that I could rewrite the main idea of a recount text.				
Focusing Attention	Focusing Attention is an interest to concentrate in reading a descriptive text and a recount text.	7. I am concentrated when determining the specific information of a descriptive text.				
		8. I am concentrated when completing the specific information of a descriptive text.				
		9. I am focused on when adding the specific information of a descriptive text.				
		10. I am focused on summarizing the specific information of a recount text.				
		11. I am focused on when differentiating the specific information of a recount text.				
		12. I am focused on when rewriting the specific information of a recount text.				
Time Use	Time Use is an interest of involvement in reading a descriptive text and a recount text.	13. I am not frequently determining the textual references of a descriptive text.				
		14. I am not frequently completing the textual references of a descriptive text.				
		15. I am not frequently adding the textual references of a descriptive text.				
		16. I am rarely summarizing the textual references of a recount text.				
		17. I am rarely differentiating the textual references of a recount text.				

		18. I am rarely rewriting the textual references of a recount text.			
Motivation	Motivation an interest to motivated in reading a descriptive text and a recount text.	19. I am not excited to determine the implicit meaning of a descriptive text.			
		20. I am not excited to complete the other meaning of a descriptive text.			
		21. I am not excited to add the other meaning of a descriptive text.			
		22. I am not excited to summarize the implicit meaning of a recount text.			
		23. I am not excited to differentiate the other meaning of the word in a recount text.			
		24. I am not excited to rewrite the word meaning in a recount text.			
Emotion	Emotion is a feeling of excitement in reading a descriptive text and a recount text.	25. I am not enthusiasm in determining the main idea of a descriptive text			
		26. I am not enthusiasm when completing the main idea of a descriptive text			
		27. I am not enthusiastic about adding the main idea of a descriptive text.			
		28. I am not enthusiastic about summarizing the main idea in a recount text.			
		29. I am not enthusiasm when differentiating the main idea in a recount text			
		30. I am not enthusiastic about rewriting the main idea of a recount text.			
Effort	Effort is an interest to strive when reading a descriptive and a recount text.	31. I do not attempt in determining the textual references of a recount text.			
		32. I do not attempt in completing the textual references of a recount text.			
		33. I do not attempt in adding the textual references of a descriptive text.			
		34. I do not attempt when summarizing the textual references of a recount text.

## APPENDIX 2: READING SELF-EFFICACY SCALE VALIDATION

### B. READING SELF-EFFICACY

#### Reading Self-efficacy

Reading self-efficacy is the students' capabilities in doing certain activity. According to Olivares, Fidalgo, & Torrance, (2016) there are three indicators and descriptors of reading self-efficacy based on semantic processing. The indicators, namely: **1) decoding self-efficacy, 2) textual self-efficacy, and 3) situational self-efficacy.** *Decoding self-efficacy* concerned with a feeling of confidence toward the fluency of figuring out the main ideas of descriptive and recount texts, *Textual self-efficacy* is an ability of self-assessed to contextualize the specific ideas of descriptive and recount texts, and *Situational self-efficacy* is an ability in integrating the information from the text with prior knowledge to discover the relevant textual references in descriptive and recount texts.

To ensure the reading self-efficacy validity and reliability, please give your judgement or your agreement with the proposed indicators by crossing **Agree** or **Disagree** independently to ensure **the content validity of the reading self-efficacy scale** in the following column. Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree.

#### 1. Reading Self-Efficacy Scale's Content Validity

Indicators	Descriptors	Score Judgements			
		1	2	3	4
Decoding self-efficacy	Decoding Self-Efficacy is a feeling of confidence in figuring out the main idea when reading a descriptive text and a recount text.				
Textual self-efficacy	Textual Self-Efficacy is an ability of self-assessed to contextualize the specific ideas when reading a descriptive text and a recount text.				
Situation self-efficacy	Situational Self-Efficacy is an ability in integrating the information from the text when reading a descriptive and a recount text.

## 2. Reading Self-Efficacy Scale's Reliability

Olivares, Fidalgo, & Torrance, (2016) proposed three indicators and descriptors of reading self-efficacy based on semantic processing. Please give your judgement or your agreement with the proposed indicators, descriptors, and the corresponding items by crossing **the appropriate score** independently to ensure **the reliability of the reading self-efficacy scale** in the following column. Note the score meanings are: 1=very irrelevant; 2=irrelevant; 3=relevant; 4=very relevant.

Indicators	Descriptors	Reading Self-Efficacy Items	Rating Scale			
			1	2	3	4
<b>Decoding Self-Efficacy</b>	Decoding Self-Efficacy is a feeling of confidents in figuring out the main idea when reading a descriptive text and a recount text.	1. I am confident that I could interpret when determining the main idea of a descriptive text.				
		2.. I am confident that I could interpret when completing the main idea of a descriptive text.				
		3. I am confident that I could interpret when adding the main idea of a descriptive text.				
		4. I am pleased that I could interpret when summarizing the main idea of a recount text.				
		5. I am pleased that I could interpret when differentiating the main idea of a recount text.				
		6. I am pleased that I could interpret when rewriting the main idea of a recount text.				
<b>Textual Self-Efficacy</b>	Textual Self-Efficacy is a feeling of ability to contextualize the main idea of a descriptive text and a recount text.	7. I am confident that I could contextualize when determining the specific information of a descriptive text.				
		8. I am confident that I could contextualize when completing the specific information of a descriptive text.				
		9. I am confident that I could contextualize when adding the specific information of a descriptive text.				
		10. I am pleased that I could contextualize to summarize the specific information of a recount text.				
		11. I am pleased that I could contextualize when differentiating the specific information of a recount text.				
		12. I am pleased that I could contextualize when rewriting the specific information of a recount text.				

<b>Situational Self-Efficacy</b>	Situational Self-Efficacy is a feeling of ability in situating a text to determine the text.	13. I am not confident that I could integrate when determining the textual references of a descriptive text.				
		14. I am not confident that I could integrate when completing the textual references of a descriptive text				
		15. I am not confident that I could integrate when adding the idea of the textual reference of a descriptive text.				
		16. I am not pleased that I could integrate when summarizing the other meaning of the word in a recount text.				
		17. I am not pleased that I could integrate when differentiating implicit meanings of a word in a recount text.				
		18. I am not pleased that I could integrate when rewriting the other meaning of a word in a recount text.

## **APPENDIX 3: READING COMPETENCY TEST VALIDATION**

### **C. READING COMPETENCY TEST**

#### **Reading Competency Test**

Reading competency is a set of attitude, knowledge, and skills (*Buku Panduan Guru Kurikulum 2013,2013*). According to Latifa (2018) there are four aspects or indicators in reading competency, namely: 1) the main idea is a complete simple sentence which illustrates the general idea of a text, 2) specific ideas or information are specific pieces of information containing in the paragraph, 3) textual references are pronouns in reference to specific nouns in the text, and 4) word meanings referring to denotative meanings. In order to ensure the validity and reliability, the instruments should be judged by experts prior to its use in data collection.

#### **1. Reading Competency Test's Content Validity**

To ensure the reading competency validity and reliability, please give your judgement or your agreement with the proposed indicators and descriptors by crossing **Agree** or **Disagree** independently to ensure the content validity of the reading competency test in the following column. Note the score meanings are: 1=very disagree; 2=disagree; 3=agree; 4=very agree.

Indicators	Descriptors	Score Judgement

## **APPENDIX 4: VALIDATION BY JUDGE**

### **RESEARCH INSTRUMENTS VALIDATION**

#### **Introduction**

The general objectives of the proposed research are to analyze the relationships among the students' reading interest, reading self-efficacy, and their reading competency in *Sekolah Menengah Pertama Negeri* in Singaraja. More specifically, the current research is objective at: 1) analyzing the students' reading interest, reading self-efficacy, and their reading competency in *Sekolah Menengah Pertama Negeri 5* Singaraja, and 2) multiple relationships of reading interest and reading self-efficacy to the eighth-grade students' reading competency on the English descriptive texts and English recount texts in *Sekolah Menengah Pertama Negeri 5* Singaraja. Prior to data collection, the instruments are validated. The reading interest, reading self-efficacy, reading competency are validated theoretically on reliability and validity through **expert judgements**. The reading competency test is validated empirically for item difficulty / facility (IF). There are three instruments that will be used, namely 1) Reading Interest Scale, 2) Reading Self-Efficacy Scale, and 3) Reading Competency Test. Those instruments will be validated on its a) Content Validity, that is the consistence between indicators and their descriptors; b) Reliability, that is the consistency between the indicators, descriptors and the items

#### **1) Reading Interest Scale**

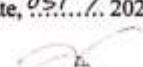

Reading interests are indicated by six indicators, namely: 1) pleasure, 2) focusing attention, 3) time use, 4) motivation, 5) emotional, 6) effort (Crow and Crow, 1956). Pleasure is a feeling of enjoyment in reading a descriptive text and a recount text. Focusing Attention is concentration or attention on the main idea, specific ideas, textual reference, and word meanings when reading a descriptive text and a recount text. Time Use is the time used in reading a descriptive text and a recount text. Motivation is a feeling of motivated in determining the main idea, specific ideas, textual reference, and word meanings when reading a descriptive text and a recount text. Emotion is a feeling of excitement in reading a descriptive text and a recount text. Effort is a power to find the main idea, specific ideas, textual reference, and word meanings when reading a descriptive and a recount text. The instrument that is used to measure reading interest is a scale adapted from Crow and Crow (1956). In order to ensure reliability and validity of the Reading Interest Scale, the instrument's blue print should be judged by the experts in order to be used in data collection.

a) **Reading Interest Scale's Content Validity**

According to Crow and Crow (1956, p.17) as cited in Fadliyatis (2015, p. 14) proposed six indicators and descriptors of reading interest. Please give your judgement or your agreement with the proposed indicators by crossing Agree or Disagree independently to ensure the content validity of the reading interest scale in the following column. Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree.

### b) Reading Interest Scale's Reliability

Crow and Crow (1956, p.17) proposed six indicators and descriptors of reading interest. Please give your judgement or your agreement with the proposed indicators, descriptors, and the corresponding items by crossing appropriate score independently to ensure the reliability of the reading interest scale in the following column. Note the score meanings are: 1=very irrelevant; 2=irrelevant; 3=relevant; 4=very relevant.

## **2) Reading Self-efficacy Scale**

Reading self-efficacy is the students' capabilities in doing certain activity. According to Olivares, Fidalgo, & Torrance, (2016) there are three indicators and descriptors of reading self-efficacy based on semantic processing. The indicators, namely: **1) decoding self-efficacy, 2) textual self-efficacy, and 3) situational self-efficacy.** *Decoding self-efficacy* concerned with a feeling of confidence in figuring out the main idea when reading a descriptive text and a recount text, *textual self-efficacy* is a feeling of ability to contextualize the main idea of a descriptive text and a recount text, and, *situational self-efficacy* is a feeling of ability in situating a text to determine the text. To ensure the reading self-efficacy validity and reliability, please give your judgement or your agreement with the proposed indicators by crossing Agree or Disagree independently to ensure the content validity of the reading self-efficacy scale in the following column. Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree.

### 3) Reading Competency Test

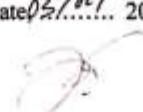

Reading competency is a set of attitude, knowledge, and skills (*Buku Panduan Guru Kurikulum 2013,2013*). According to Latifa (2018) there are four aspects or indicators in reading competency, namely: 1) the main idea is a complete simple sentence which illustrates the general idea of a text, 2) specific ideas or information are specific pieces of information containing in the paragraph, 3) textual references are pronouns in reference to specific nouns in the text, and 4) word meanings referring to denotative meanings. In order to ensure the validity and reliability, the instruments should be judged by experts prior to its use in data collection.

#### a) Reading Competency Test's Content Validity

To ensure the reading competency validity and reliability, please give your judgement or your agreement with the proposed indicators and descriptors by crossing Agree or Disagree independently to ensure the content validity of the reading competency test in the following column. Note the score meanings are: 1=very disagree; 2=disagree; 3=agree; 4=very agree.

## APPENDIX 5: VALIDATION BY JUDGE

### RESEARCH INSTRUMENTS VALIDATION

#### Introduction

The general objectives of the proposed research are to analyze the relationships among the students' reading interest, reading self-efficacy, and their reading competency in *Sekolah Menengah Pertama Negeri* in Singaraja. More specifically, the current research is objective at: 1) analyzing the students' reading interest, reading self-efficacy, and their reading competency in *Sekolah Menengah Pertama Negeri 5* Singaraja, and 2) multiple relationships of reading interest and reading self-efficacy to the eighth-grade students' reading competency on the English descriptive texts and English recount texts in *Sekolah Menengah Pertama Negeri 5* Singaraja. Prior to data collection, the instruments are validated. The reading interest, reading self-efficacy, reading competency are validated theoretically on reliability and validity through expert judgements. The reading competency test is validated empirically for item difficulty / facility (IF). There are three instruments that will be used, namely 1) Reading Interest Scale, 2) Reading Self-Efficacy Scale, and 3) Reading Competency Test. Those instruments will be validated on its a) Content Validity, that is the consistence between indicators and their descriptors; b) Reliability, that is the consistency between the indicators, descriptors and the items

#### 1) Reading Interest Scale

Reading interests are indicated by six indicators, namely: 1) pleasure, 2) focusing attention, 3) time use, 4) motivation, 5) emotional, 6) effort (Crow and Crow, 1956). Pleasure is a feeling of enjoyment in reading a descriptive text and a recount text. Focusing Attention is concentration or attention on the main idea, specific ideas, textual reference, and word meanings when reading a descriptive text and a recount text. Time Use is the time used in reading a descriptive text and a recount text. Motivation is a feeling of motivated in determining the main idea, specific ideas, textual reference, and word meanings when reading a descriptive text and a recount text. Emotion is a feeling of excitement in reading a descriptive text and a recount text. Effort is a power to find the main idea, specific ideas, textual reference, and word meanings when reading a descriptive and a recount text. The instrument that is used to measure reading interest is a scale adapted from Crow and Crow (1956). In order to ensure reliability and validity of the Reading Interest Scale, the instrument's blue print should be judged by the experts in order to be used in data collection.

**a) Reading Interest Scale's Content Validity**

According to Crow and Crow (1956, p.17) as cited in Fadliyatis (2015, p. 14) proposed six indicators and descriptors of reading interest. Please give your judgement or your agreement with the proposed indicators by crossing Agree or Disagree independently to ensure the content validity of the reading interest scale in the following column. Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree; 4=strongly agree.

## 2) Reading Self-efficacy Scale

Reading self-efficacy is the students' capabilities in doing certain activity. According to Olivares, Fidalgo, & Torrance, (2016) there are three indicators and descriptors of reading self-efficacy based on semantic processing. The indicators, namely: **1) decoding self-efficacy, 2) textual self-efficacy, and 3) situational self-efficacy.** *Decoding self-efficacy* concerned with a feeling of confidents in figuring out the main idea when reading a descriptive text and a recount text, *textual self-efficacy* is a feeling of ability to contextualize the main idea of a descriptive text and a recount text, and, *situational self-efficacy* is a feeling of ability in situating a text to determine the text. To ensure the reading self-efficacy validity and reliability, please give your judgement or your agreement with the proposed indicators by crossing Agree or Disagree independently to ensure the content validity of the reading self-efficacy scale in the following column. Note the score meanings are: 1=strongly disagree; 2=disagree; 3=agree;4=strongly agree.

### 3) Reading Competency Test

Reading competency is a set of attitude, knowledge, and skills (*Buku Panduan Guru Kurikulum 2013,2013*). According to Latifa (2018) there are four aspects or indicators in reading competency, namely: 1) the main idea is a complete simple sentence which illustrates the general idea of a text, 2) specific ideas or information are specific pieces of information containing in the paragraph, 3) textual references are pronouns in reference to specific nouns in the text, and 4) word meanings referring to denotative meanings. In order to ensure the validity and reliability, the instruments should be judged by experts prior to its use in data collection.

#### a) Reading Competency Test's Content Validity

To ensure the reading competency validity and reliability, please give your judgement or your agreement with the proposed indicators and descriptors by crossing Agree or Disagree independently to ensure the content validity of the reading competency test in the following column. Note the score meanings are: 1=very disagree; 2=disagree; 3=agree; 4=very agree.

## Text Seven : Descriptive Text of Procedure

How do you serve a cup of tea? If you are using leaves, put a teaspoon of tea per cup in your warm teapot. Fill it with freshly boiled water (never boil water twice), stir slightly, and allow it to 'steep' or sit for between 2 and 5 minutes, depending on the strength you seek. Stir it again before you serve.

Serving the coffee at the counter or at the table is always with the saucer placing the handle of the cup to the left and the spoon to the right of the cup with the handle of the latter towards the customer. Customers are pleased to find on the saucer a good small chocolate treat to be enjoyed before or after the coffee. (<https://www.professorhouse.com>).

**Questions:**
