ABSTRACT

This research describes the potential of Panji Village forest as a natural tourism attraction, religious tourism, family tourism, and hiking tourism based on 5 W (what to do, what to see, what to buy, what to stay, what to arrive). This type of research is descriptive qualitative. The source of informants came from the village secretary, the head of the Village Forest Management Organization, and members of the Tourism Awareness Group. This research uses observation and interview methods used to collect data on the potential of Panji Village forest as a natural tourism attraction based on 5W. This research instrument uses observation sheets and interview guidelines. Furthermore, the data obtained is presented descriptively qualitatively and can be researched using the 5 W. What to Do (activities that can be done) that can be done by tourists such as religious tourism, family tourism and hiking tours. Religious tourism by visiting the landep peak temple and yellow tirta water, family tourism such as setting up tents in the camping ground area, and hiking tours that can be done by tourists by doing hiking activities to the landep peak temple. What to See (something that can be seen) that tourists can see such as nature tourism. Natural tourism that tourists can see is the diversity of flora and fauna, terraced views and 3 waterfalls, namely cypress waterfall, dedari waterfall and canging waterfall. What to Stay (where to stay) that tourists can choose is D'Kailash Retreat. What to Buy (something that can be bought) there are no souvenir sellers around the Panji Village forest area. What to Arrived (access that can be reached) tourists can travel from Ngurah Rai I Gustri Airport about 95km and 9.8km from Singaraja City center.

Keywords: *Panji Village, village forest, nature tourism,*
