Appendix 2 Guiding Theory for Preliminary Observation

Num	Theory	Items
1	In 2019, the Indonesian Minister of Education initiated a new curriculum as a refinement of the previous 2013 curriculum. This curriculum is called the Independent Curriculum. Schools are starting to plan to implement the Curriculum. The Merdeka Curriculum is a curriculum with varied intracurricular learning, the content is more optimal so that students have sufficient time to deepen concepts and strengthen skills. Merdeka Curriculum also frees teachers to choose different learning tools so that teaching can be tailored to student's learning needs and interests (Khoirurrijal et al., 2022).	1
2	Teachers must be able to plan a systematic and comprehensive lesson plan that consists of learning objectives, indicators, learning phases, learning materials, learning environments, learning methods, learning environments, and assessments that are in accordance with the curriculum so that the learning process becomes effective (Hutagaol, 2018).	2
3	21st-century learning more emphasis on students' activeness in learning or student-centered learning. 21st-century learning is oriented toward activities to train students' skills by directing the learning process (Mardhiyah et al., 2021). In the Merdeka Curriculum, teachers only become facilitators, mentors or trainers in project-based active learning activities (Arifa, 2022). Project-based learning, problem-based learning, and discovery-based learning are learning methods used in 21st century learning (Haryati, 2017).	3
4	Teaching modules are a number of communication tools, methods, guides and tutorials that are designed systematically and interestingly. The teaching module is an implementation of the flow of learning objectives developed from learning outcomes targeting the Pancasila student profile. Teaching modules are structured according to student development stages, taking into account what will be learned with learning objectives and based on long-term development (Primayana, 2022).	4

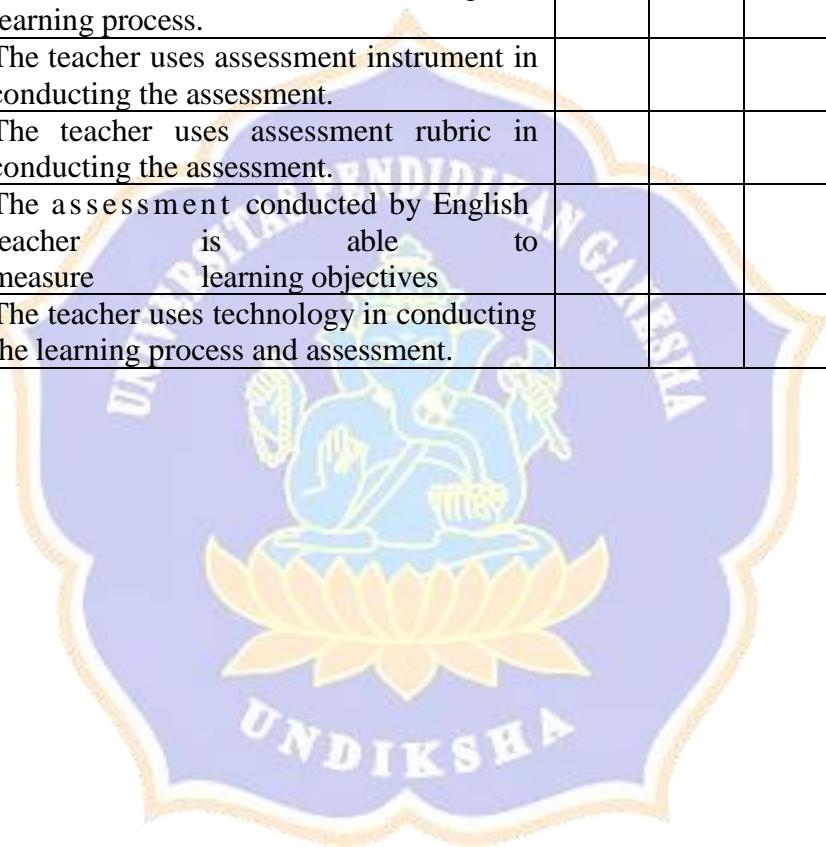

5	A lesson plan writes down how students will move toward achieving a specific goal. In English subjects, the objectives of an effective lesson plan explain what students can do in terms of behavior, use of the foreign language, and observation (Shrum and Glisan, 2002). Lesson plans can be said to be procedures and management of learning to achieve one or more basic competencies which are regulated in competency standards and enlarged in the syllabus. The lesson plan contains learning objectives, methods, indicators and materials (Maulani, 2019).	5
6	Assessment has a meaning to give appraise about skills, knowledge, attitude, and result that achieve or acquire by the student (Barkley & Major, 2016). Assessment is the process of collecting and discussing information from a variety of sources and activities to develop a deep understanding of what students know, understand, and can do with their knowledge through educational experiences (Tontus, 2020)	6, 7
7	There are two types of assessment that can be used or applied by educators to measure students' ability levels, namely formative assessment and summative assessment (Anggraena et al., 2022)	8
8	Permendikbud No. 104 Tahun 2014 explains that authentic assessment is a form of assessment that requires students to display attitudes, use knowledge and skills obtained from learning in carrying out tasks in real situations. Merdeka curriculum also requires teachers to use authentic assessment during learning to provide appropriate learning which focuses on a continuous process, (Yulianto, 2022).	9
9	Feedback assists teachers and students in gaining additional insight and capabilities, as well as developing competence and minimizing errors (Adarkwah, 2021).	10
10	Payne stated that the assessment instrument is considered to be good if it meets several criteria, namely (1) relevant in data collection in accordance with the purpose of the assessment, (2) there is balance of proportions of measurement multidimensionally, (3) it can be used efficiently, (4) objectivity in scoring, (5) consistency of measurement, (6) describing honesty (not biased), (7) specifically measuring aspects being studied, (8) describing the level of difficulty addressed by the skills, knowledge, and abilities of assessed individuals, (9) can distinguish individual ability levels, and (10) do not measure	11

	individuals' speed. An assessment tool for describing the expectations of a task is a rubric (Chowdhury, 2019). The rubric is used to describe learning standards, guidelines, goals that students must obtain after learning. This makes it easier for the teacher to do the assessment (Aeni & Suwarno, 2021)	
11	An assessment tool for describing the expectations of a task is a rubric (Chowdhury, 2019). The rubric is used to describe learning standards, guidelines, goals that students must obtain after learning. This makes it easier for the teacher to do the assessment (Aeni & Suwarno, 2021).	12
12	In conducting assessments, teachers must understand how assessments are conducted, what types of assessments answer what questions, and how data from assessments can be used to help teachers, students, parents, and other stakeholders make decisions about the teaching and learning process. Characteristics of good assessment contain content validity, reliability, reasonableness, student involvement and motivation, consequential relevance, and level of difficulty (Febriani, Rahmi Dwi , Yusuf, 2022).	13
13	Merdeka Curriculum is designed to be more adaptable to student needs which places great emphasis on student-centered learning and the wise use of technology in learning (Zidan, 2023). The role of educational technology in the independent learning perspective in the 4.0 era is very influential in terms of providing convenience in implementing the independent learning program in real terms, not only in planning and processes but at the management, utilization, development and assessment stages (Widiyono & Millati, 2021).	14

Appendix 4. Guiding Theory for Teacher Interview

Num	Theory	Items
1	The development of soft skills and student character is carried out with a project from the government called the Project to Strengthen the Pancasila Student Profile. This project is a co-curricular activity in order to strengthen the character and competence of students in accordance with Pancasila values.	1
2	Merdeka Curriculum provides flexibility for educators to adjust and choose various learning tools and media to optimize learning and create quality learning tailored to students' needs.	2
3	According to Adam (2004), a learning outcome is a written statement of what the learners are expected to be able to do and achieve at the end of the course. Learning outcomes can be seen as a tool for educational, instructional and curriculum purposes or a tool for accountability purposes (Prøitz, 2010).	3
4	Learning objectives are guiding tools that help the students to achieve the desired results or goals of the course. Learning objectives also help the teachers the way they teach or conduct the lesson and make the students aware of what they will achieve at the end of the course (Mahajan & Singh, 2017).	4
5	Teaching modules are a number of communication tools, methods, guides and tutorials that are designed systematically and interestingly. The teaching module is an implementation of the flow of learning objectives developed from learning outcomes targeting the Pancasila student profile. Teaching modules are structured according to student development stages, taking into account what will be learned with learning objectives and based on long-term development (Primayana, 2022).	5
6	In the Kurikulum Merdeka the realization of students involved can be seen or observed through project-based learning processes and the use of authentic assessment (Rizki and Fahkruniza, 2022). In the Merdeka Curriculum, teachers only become facilitators, mentors or trainers in project-based active learning activities (Arifa, 2022). Project-based learning, problem-based learning, and discovery-based learning are learning methods used in 21st century learning (Haryati, 2017).	6,7

7	There are two types of assessment that can be used or applied by educators to measure students' ability levels, namely formative assessment and summative assessment (Anggraena et al., 2022)	8,9
8	Permendikbud No. 104 Tahun 2014 explains that authentic assessment is a form of assessment that requires students to display attitudes, use knowledge and skills obtained from learning in carrying out tasks in real situations. Merdeka curriculum also requires teachers to use authentic assessment during learning to provide appropriate learning which focuses on a continuous process, (Yulianto, 2022).	10
9	Teachers' lack of understanding of the format of authentic assessment creates difficulties for teachers in implementing authentic assessment (Arsita & Farhoni, 2022). In addition, the lack of time and the large number of students to be assessed make it difficult for teachers to complete their assessments (Rosidah, Pramulia, & Susiloningsih, 2021).	11
10	In the Kurikulum Merdeka the realization of students involved can be seen or observed through project based learning processes and the use of authentic assessment (Rizki and Fahkruniza, 2022). By using an authentic assessment, teachers can examine students' knowledge and abilities and encourage students to apply what they have learned in real terms (Nguyen & Phan, 2020).	12
11	An assessment tool for describing the expectations of a task is a rubric (Chowdhury, 2019). The rubric is used to describe learning standards, guidelines, goals that students must obtain after learning. This makes it easier for the teacher to do the assessment (Aeni & Suwarno, 2021).	13
12	Through feedback, the teacher receives new information that can be used to develop skills and minimize mistakes (Adarkwah, 2021). Feedback is an important tool for improving students' skills (Heinze and Reiss, 2016).	14, 15
13	Merdeka Curriculum is designed to be more adaptable to student needs which places great emphasis on student-centered learning and the wise use of technology in learning (Zidan, 2023)	16

KUISIONER SISWA METODE BELAJAR DAN GAYA BELAJAR SISWA KELAS VII PADA KURIKULUM MERDEKA

Petunjuk Pengisian Kuisioner:

- Pada bagian A (Metode Belajar), pilihlah salah satu antara Ya/Tidak sesuai dengan Pembelajaran Bahasa Inggris di kelas dengan memberi tanda centang (✓) pada kolom.
- Pada bagian B (Gaya Belajar Siswa), pilihlah salah satu pernyataan yang mendekati diri anda dengan memberi tanda centang (✓) pada salah satu lingkaran (○).
- Tidak ada pilihan benar atau salah.

A. METODE BELAJAR

Dimensi: Learning Method

No	Pernyataan	Ya	Tidak
1	Apa guru pernah mengajak siswa untuk berdiskusi dan/atau belajar kelompok di dalam kelas?		
2	Apa siswa lebih menikmati berdiskusi dan/atau belajar secara kelompok?		
3	Apa siswa lebih menikmati belajar secara mandiri?		
4	Apa guru pernah mengajak siswa membuat projek berkelompok dan/atau mandiri di dalam kelas?		
5	Apa siswa lebih menikmati membuat projek secara berkelompok?		
6	Apa siswa lebih menikmati membuat projek secara mandiri?		

B. GAYA BELAJAR SISWA

Dimensi: Learning Style

1. Saya ingin pergi ke bioskop namun saya tidak tahu jalan menuju bioskop.
Maka, saya akan:

- Mencari tahu sendiri dengan tempat yang saya tahu dan dekat dengan bioskop.
 - Menanyakan arah ke bioskop kepada teman.
 - Menulis arah ke bioskop di kertas/hp untuk mengingat arah ke bioskop.
 - Menggunakan google maps.
- 2. Saya ingin merakit mainan robot, namun saya tidak tahu bagaimana untuk merakitnya, sehingga saya:
 - Langsung merakit mainan robot sambil menonton video Youtube untuk merakitnya.
 - Berdiskusi dengan teman untuk merakit mainan robot.
 - Membaca instruksi untuk membuat mainan robot.
 - Langsung merakit mainan robot.
- 3. Saya lebih suka guru mengajar dengan cara:
 - Guru memperagakan materi dan lebih banyak latihan.
 - Guru lebih banyak menjelaskan dan melakukan tanya jawab.
 - Guru memberikan buku untuk dibaca.
 - Guru menampilkan gambar-gambar tentang materi.
- 4. Saya ingin liburan ke Jakarta, sebelum berangkat saya ingin mempelajari Jakarta. Saya belajar melalui:
 - Menonton video tentang Jakarta.
 - Menggunakan atlas melihat letak Jakarta.
 - Membaca buku tentang Jakarta.
 - Berbicara tentang Jakarta dengan teman.
- 5. Ketika belajar membuat origami saya lebih suka untuk:
 - Membuat origami secara langsung sambil menonton youtube.
 - Berdiskusi dengan teman yang sudah bisa.
 - Belajar dengan kertas tutorial yang ada di bungkus origami.
 - Buku tentang origami.
- 6. Guru mengajar menggunakan aplikasi Canva. Guru menjelaskan materi di aplikasi Canva, sambil memperagakan materi didepan kelas. Saya belajar

mudah mengerti melalui:

- Melihat gambar yang ada di aplikasi Canva.
- Mendengarkan penjelasan guru.
- Membaca tulisan di aplikasi Canva.
- Memperhatikan guru saat memperagakan materi.

7. Ketika saya belajar untuk bermain sepak bola, saya akan:

- Berdiskusi tentang cara bermain sepak bola dengan teman.
- Menonton pertandingan sepak bola.
- Bermain sepak bola bersama teman.
- Membaca buku tentang sepak bola.

8. Saya ingin belajar menggambar, saya akan:

- Menonton teman saya ketika mereka menggambar.
- Mendengarkan penjelasan dari teman cara untuk menggambar.
- Langsung menggambar bersama dengan teman.
- Membaca informasi cara menggambar.

9. Ketika saya belajar menggunakan chromebook, saya lebih suka:

- Menonton video cara menggunakan chromebook.
- Membaca buku panduan cara menggunakan chromebook.
- Mendengarkan penjelasan teman yang sudah bisa menggunakan chromebook.
- Mulai mencoba sendiri untuk menggunakan chromebook tersebut.

10. Saya ingin belajar untuk menabung di celengan, saya akan memulainya dengan:

- Membuat tabel sesuai waktu dan jumlah yang saya inginkan, lalu menandainya jika saya sudah menabung.
- Membaca informasi mengenai cara menabung di internet.
- Bertanya dengan teman yang sudah pernah menabung.
- Langsung menyimpan uang di celengan.

11. Saya ingin belajar menggunakan kamera, maka saya akan:

- Meminta bantuan teman untuk diperagakan cara menggunakan kamera.
 - Bertanya bagaimana cara menggunakan kamera.
 - Membaca buku panduan menggunakan kamera.
 - Menulis cara menggunakan kamera di buku catatan.
12. Hari senin depan saya ada ulangan harian, saya akan belajar dengan cara:
- Memperagakan contoh-contoh mengenai materi yang saya pelajari.
 - Membaca buku lalu mengingat materi yang saya baca.
 - Melihat gambar-gambar yang sesuai dengan materi.
 - Mengajak teman untuk berdiskusi.

Appendix 12. 7th-Grade Learning Objective Flow (ATP)

Alur Dan Tujuan Pembelajaran (ATP) Kurikulum Merdeka

ALUR DAN TUJUAN PEMBELAJARAN (ATP) KURIKULUM MERDEKA

Nama penyusun	: Komang Sri Wahyuni, S.Pd.
Nama Sekolah	: SMP N 1 SUKASADA
Mata pelajaran	: Bahasa Inggris
Fase D, Kelas / Semester	: VII (Tujuh) / I (Ganjil) & II (Genap)

ALUR DAN TUJUAN PEMBELAJARAN (ATP) BAHASA INGGRIS FASE D KELAS VII

Mata Pelajaran	: Bahasa Inggris
Satuan Pendidikan	: SMP
Fase / Kelas	: D / VII
Nama penyusun	: Komang Sri Wahayuni, S.Pd.

A. Pengantar

Alur dan tujuan pembelajaran ini memuat peta jalur pembelajaran Bahasa Inggris pada fase D yang merupakan turunan dari capaian pembelajaran (CP) yang sudah ditetapkan. Alur dan tujuan ini memuat enam keterampilan berbahasa yaitu menyimak - berbicara, membaca - memirsing, dan menulis - mempresentasi. Setiap keterampilan berbahasa tersebut memiliki capaian tertentu yang kesemuanya mengerucut pada tujuan akhir yakni kemampuan berinteraksi dan berkomunikasi dalam Bahasa Inggris. Kemudian, pada fase ini dibagi kedalam tiga tingkatan kelas yakni 7, 8, dan 9. Setiap tingkatan tersebut memiliki kedalaman dan keluasan konteks materi yang berbeda, dalam hal ini disebut sebagai lingkup keluarga dan kelas untuk kelas 7, lingkup kehidupan remaja untuk kelas 8, dan lingkup global untuk kelas 9.

Alur dan tujuan pembelajaran ini juga dilengkapi dengan penjelasan singkat di setiap tujuannya. Hal ini dimaksudkan untuk membantu mendekatkan konsep pembelajaran yang diharapkan. Alur dan tujuan pembelajaran ini tidak bersifat kaku dan mengikat, guru diberikan keleluasaan untuk mengembangkannya sesuai dengan kondisi dan kebutuhan kelas yang diajar. Oleh karena itu, jenis kegiatan yang dicantumkan pada bagian penjelasan singkat adalah bukan sebagai suatu hal yang wajib untuk diterapkan oleh guru, melainkan sebagai bantuan pilihan yang dapat diterapkan.

Alur dan tujuan pembelajaran ini disusun dengan format tabel dan diberikan penomoran di setiap tujuan pembelajaran untuk memudahkan kodefikasi dan penelaahan. Pada setiap bagiannya memuat *tujuan pembelajaran, perkiraan jam pelajaran, kata frasa/kunci, topik/konten, glosarium, dan penjelasan singkat*. Kesemua hal tersebut ditujukan untuk membantu guru mengembangkan ide-ide pembelajaran yang akan diterapkan di kelas.

B. Rasional Mata Pelajaran Bahasa Inggris

Alur dan tujuan pembelajaran ini disusun berdasarkan pendekatan berbasis *genre*. Pendekatan tersebut sejalan dengan tujuan pembelajaran bahasa secara umum yakni untuk berkomunikasi, yang pada prosesnya tidak sekedar menekankan pada permasalahan *grammatical* semata, melainkan lebih kepada memberikan kesempatan nyata kepada siswa untuk memahami tentang bagaimana bahasa itu dibangun dan bagaimana bahasa tersebut digunakan dalam berbagai konteks sosial.

C. Capaian Pembelajaran Fase D

Pada akhir fase D, siswa menggunakan teks lisan, tulisan, dan visual dalam Bahasa Inggris untuk berinteraksi dan berkomunikasi dalam konteks yang lebih beragam dan dalam situasi formal dan informal, berbagai jenis teks seperti narasi, deskripsi, prosedur, teks khusus (pesan singkat, iklan) dan teks asli menjadi rujukan utama dalam mempelajari Bahasa Inggris di fase ini. Siswa menggunakan Bahasa Inggris untuk berdiskusi dan menyampaikan keinginan/perasaan. Pemahaman mereka terhadap teks tulisan semakin berkembang dan keterampilan inferensi mulai tampak ketika memahami informasi tersirat. Mereka memproduksi teks tulisan dan visual dalam Bahasa Inggris yang terstruktur dengan kosa

kata yang lebih beragam. Mereka memahami tujuan dan pemirsa ketika memproduksi teks tulisan dan visual dalam Bahasa Inggris.

Capaian Berdasarkan Elemen.

Elemen Menyimak – Berbicara
Pada akhir Fase D, peserta didik menggunakan bahasa Inggris untuk berinteraksi dan saling bertukar ide, pengalaman, minat, pendapat dan pandangan dengan guru, teman sebaya dan orang lain dalam berbagai macam konteks familiar yang formal dan informal. Dengan pengulangan dan penggantian kosakata, peserta didik memahami ide utama dan detil yang relevan dari diskusi atau presentasi mengenai berbagai macam topik yang telah familiar dan dalam konteks kehidupan di sekolah dan di rumah. Mereka terlibat dalam diskusi, misalnya memberikan pendapat, membuat perbandingan dan menyampaikan preferensi. Mereka menjelaskan dan memperjelas jawaban mereka menggunakan struktur kalimat dan kata kerja sederhana. <i>By the end of Phase D, students use English to interact and exchange ideas, experiences, interests, opinions and views with teachers, peers and others in an increasing variety of familiar formal and informal contexts. With some repetition and rewording, they comprehend the main ideas and relevant details of discussions or presentations on a variety of general interest topics. They engage in discussion such as giving opinions, making comparisons and stating preferences. They explain and clarify their answers using basic sentence structure and verb tenses</i>
Elemen Membaca – Memirsinga
Pada akhir fase D, peserta didik membaca dan merespon teks familiar dan tidak familiar yang mengandung struktur yang telah dipelajari dan kosakata yang familiar secara mandiri. Mereka mencari dan mengevaluasi ide utama dan informasi spesifik dalam berbagai jenis teks. Teks ini dapat berbentuk cetak atau digital, termasuk diantaranya teks visual, multimodal atau interaktif. Mereka mengidentifikasi tujuan teks dan mulai melakukan inferensi untuk memahami informasi tersirat dalam sebuah teks. <i>By the end of Phase D, students independently read and respond to familiar and unfamiliar texts containing predictable structures and familiar vocabulary. They locate and evaluate main ideas and specific information in texts of different genres. These texts may be in the form of print or digital texts, including visual, multimodal or interactive texts. They identify the purpose of texts and begin to make inference to comprehend implicit information in the text.</i>
Elemen Menulis – Mempresentasikan
Pada akhir Fase D, peserta didik mengomunikasikan ide dan pengalaman mereka melalui paragraf sederhana dan terstruktur, menunjukkan perkembangan dalam penggunaan kosakata spesifik dan struktur kalimat sederhana. Menggunakan contoh, mereka membuat perencanaan, menulis, dan menyajikan teks informasi, imajinasi dan persuasi dengan menggunakan kalimat sederhana dan majemuk untuk menyusun argumen dan menjelaskan atau mempertahankan suatu pendapat. <i>By the end of Phase D, students communicate their ideas and experience through simple, organized paragraphs, demonstrating a developing use of specific vocabulary and simple sentence structures. Using models, they plan, create and present informative, imaginative and persuasive texts in simple and compound sentences to structure arguments and to explain or justify a position. They include basic information and detail, and also vary their sentence construction in their writing. Students express ideas in the present, future, and past tenses. They use time markers, adverbs of frequency and common conjunctions to link</i>

ideas. Their attempts to spell new words are based on known English letter-sound relationships and they use punctuation and capitalization with consistency.
