

ABSTRAK

Juliandi (2023), *Analisis pengelolaan sampah dalam mendukung penerapan sustainable tourism di Kabupaten Lombok Tengah, Nusa Tenggara Barat*. Tesis, Manajemen Lingkungan, Program Pascasarjana, Universitas Pendidikan Ganesha

Thesis ini sudah disetujui dan diperiksa oleh Pembimbing I : Prof. Dr. I Gede Astra Wesnawa, M.Si dan Pembimbing II : Dr. I Made Gunamantha, ST., MM

Kata-kata Kunci: Sampah, Pengelolaan Sampah, Pariwisata, Pariwisata Berkelanjutan

Tren perkembangan pariwisata yang dahulunya cenderung ke *quantity tourism* kini menjadi *quality tourism* sebagai bentuk penerapan *sustainable tourism*. Pengelolaan sampah merupakan salah satu indikator penting dalam pengembangan kawasan wisata. Penelitian ini dilaksanakan di Kabupaten Lombok Tengah, dengan tujuan: (1) mengetahui bagaimana sistem pengelolaan sampah pariwisata, (2) menganalisis kondisi sarana dan prasarana dalam pengelolaan sampah pariwisata dan (3) menganalisis peran serta masyarakat, wisatawan, dan pelaku usaha bidang pariwisata dalam pengelolaan sampah di Kabupaten Lombok Tengah. Populasi penelitian meliputi seluruh kawasan wisata di Kabupaten Lombok Tengah yang dipilih dengan teknik *purposive sampling*. Sampel penelitian melibatkan informan kunci yang terdiri dari Kepala Dinas Lingkungan Hidup, Kepala Dinas Pariwisata, dan Kepala Desa pengelola Desa Wisata. Data dikumpulkan melalui wawancara, observasi, dan dokumentasi. Selanjutnya data dianalisis secara kualitatif. Hasil penelitian menunjukkan: (1) sistem pengelolaan sampah pariwisata di Kabupaten Lombok Tengah masih dilakukan secara tradisional (kumpul-angkut-buang), (2) kondisi sarana dan prasarana pengelola sampah masih sangat kurang, (3) peran serta keterlibatan masyarakat, wisatawan, dan pelaku usaha bidang pariwisata dalam pengelolaan sampah masih tergolong rendah. Berdasarkan indikator pengelolaan sampah pariwisata, pengelolaan sampah Kabupaten Lombok Tengah sekarang ini belum bisa mendukung penerapan pariwisata berkelanjutan.

ABSTRACT

Juliandi (2023), Analysis of waste management in supporting the implementation of sustainable tourism in Central Lombok Regency, West Nusa Tenggara. Thesis, Environmental Management, Postgraduate Program, Ganesha University of Education.

This thesis has been approved and checked by Supervisor I: Prof. Dr. I Gede Astra Wesnawa, M.Si and Supervisor II : Dr. I Made Gunamantha,ST.,MM

Keywords: Waste, Waste management, Tourism, Sustainable tourism, Central Lombok

The trend in tourism development which previously tended towards quantity tourism is now becoming quality tourism as a form of implementing sustainable tourism. Waste management is an important indicator in developing tourist areas. This research was conducted in Central Lombok Regency the aims of the research are: (1) to know how the tourism waste management system, (2) to analyze the condition of facilities and infrastructure and (3) to analyze the participation of the community and tourists, and tourism business actors in waste management in Central Lombok Regency. The research population includes all society areas in Central Lombok Regency which was selected by scope sampling technique. The research sample involved key informants consisting of the Head of the Environmental Service, the head of the tourism office, and the Village Head managing the Tourism Village. The data was collected through interviews, observation, and documentation. Furthermore, the data were analyzed qualitatively. The results of the study show: (1) the tourism waste management system in Central Lombok Regency is still carried out traditionally (collect-transport-dispose), (2) the condition of waste management facilities and infrastructure is still very limited, (3) and the role and involvement of the community, tourists, and business actors in the tourism sector in waste management are still relatively low. Based on indicators of tourism waste management, waste management in Central Lombok Regency is currently unable to support the implementation of sustainable tourism.
