Appendix 4. Expert Judgment Sheet

Instrument: Questionnaire

Expert Judge 1

Instrument : Questionnaire of Students Beliefs in Implementing Differentiated Instruction Integrated with Technology

1st Expert : Putu Adi Krisna Juniarta, S.Pd., M.Pd. (Judge 1)

The questionnaire in this research is adapted from Rahmawita, (2022), which uses the belief theory from Horwitz (1999). Horwitz divides beliefs in language learning into 5 aspects of assessment. The five aspects in question consist of;

1. **Difficulty of language learning**, which students difficulties that often experience in language classes in learning foreign languages.
2. **Foreign language aptitude**, which refers to the student's talent in using a foreign language. This could be related to the ease with which students understand the language.
3. **Nature of language learning**, is one aspect that shows that language learning is a different process than learning other subjects.
4. **Learning and communication strategies**, refer to the strategy used by students in practicing foreign language skills while students are studying it.
5. **Motivation and expectations**, these motivations and expectations tend to influence students' beliefs about how the language will help them in other aspects of life

Dimension	Number of Questions
Beliefs about the difficulty of language learning	3, 4, 6, 22, 26
Beliefs about language learning aptitude	1, 2, 9, 13, 20, 27, 30, 31, 32
Beliefs about nature in language learning	5, 10, 14, 18, 23, 24
Beliefs about learning and communication strategy	15, 19, 7, 8, 11, 12, 16, 17
Motivation and expectation in language learning	21, 25, 28, 29
