## **ABSTRACT**

Subak is a community organization engaged in regulating the irrigation system of farmers in Bali. This research aims to (1) produce a design and implement the results of the design of the 3-dimensional animation film Subak: Maintaining Community Harmony with the Concept of Pawongan in the Tri Hita Karana Philosophy as an educational medium related to the Subak organization and the moral values contained in it, (2) To find out the community's response to the Subak 3-Dimensional Animation Film: Maintaining Community Harmony with the Pawongan Concept in the Tri Hita Karana Philosophy. Subak 3-Dimensional Animation Film: Maintaining Community Harmony with the Concept of Pawongan in the Tri Hita Karana Philosophy as an educational means of the Subak organization, especially for teenagers, was developed using the Multimedia Development Life Cycle (MDLC) method. MDLC is a method consisting of 6 stages, namely concept, design, material collecting, assembly, testing, and distribution. The results of the user response test resulted in an average score of 34.64 which shows the qualification of "Very Positive" and the criterion of "Very Good". In addition, the researcher has also conducted a percentage test of the feasibility of the 3-dimensional Subak Animation Film: Maintaining Community Harmony with the Concept of Pawongan in the Tri Hita Karana Philosophy. The results obtained showed a score of 86.6% with the category "Good". Based on these results, the development of this film was very well received by the respondents.
