ABSTRAK

Penelitian ini bertujuan untuk menganalisis jumlah passing & control serta shooting yang dilakukan oleh tim futsal Kota Bandung dalam setiap pertandingan pada Kompetisi PORPROV Jawa Barat 2022. Metode yang digunakan adalah observasi dengan menganalisis tayangan ulang pertandingan tim futsal Kota Bandung yang diambil dari channel YouTube resmi AFP Jawa Barat. Data yang dikumpulkan meliputi jumlah passing & control dan shooting yang dilakukan oleh tim futsal dalam setiap babak pertandingan. Hasil analisis menunjukkan adanya variasi dalam jumlah passing & control serta shooting di setiap pertandingan. Pada pertandingan pertama, babak pertama tim melakukan 70 passing & control dan 31 shooting, sementara di babak kedua terjadi 60 passing & control dan 25 shooting. Di pertandingan kedua, babak pertama tercatat 96 passing & control dan 28 shooting, sedangkan babak kedua meningkat menjadi 152 passing & control dan 23 shooting. Pada pertandingan ketiga, babak pertama menunjukkan 58 passing & control dan 21 shooting, dan di babak kedua terjadi 153 passing & control serta 43 shooting. Di pertandingan keempat, babak pertama tercatat 165 passing & control dan 29 shooting, sedangkan babak kedua 76 passing & control dan 23 shooting. Terakhir, pada pertandingan kelima, babak pertama tim melakukan 123 passing & control dan 22 shooting, sementara di babak kedua meningkat menjadi 190 passing & control dan 23 shooting. Penelitian ini diharapkan dapat memberikan manfaat teoritis dalam pengembangan ilmu kepelatihan futsal dan manfaat praktis bagi pelatih futsal untuk memperbaiki teknik permainan serta meningkatkan kualitas analisis pertandingan futsal dalam upaya meraih prestasi.

ABSTRACT

This study aims to analyze the number of passing & control as well as shooting performed by the Bandung City futsal team in each match during the 2022 West Java PORPROV competition. The method used is observation by analyzing match replays of the Bandung City futsal team taken from the official YouTube channel of AFP West Java. The data collected includes the number of passing & control and shooting performed by the futsal team in each match half. The analysis results show variations in the number of passing & control and shooting in each match. In the first match, the first half recorded 70 passing & control and 31 shooting, while in the second half, there were 60 passing & control and 25 shooting. In the second match, the first half recorded 96 passing & control and 28 shooting, while the second half increased to 152 passing & control and 23 shooting. In the third match, the first half showed 58 passing & control and 21 shooting, and in the second half, there were 153 passing & control and 43 shooting. In the fourth match, the first half recorded 165 passing & control and 29 shooting, while the second half recorded 76 passing & control and 23 shooting. Finally, in the fifth match, the first half recorded 123 passing & control and 22 shooting, while in the second half, the number increased to 190 passing & control and 23 shooting. This study is expected to provide theoretical benefits in the development of futsal coaching science and practical benefits for futsal coaches to improve playing techniques and enhance futsal match analysis quality in efforts to achieve success.
