ABSTRACT

This study aims to examine the effect of service quality and destination image on visitor satisfaction at the Air Sanih swimming pool tourist attraction. The research uses a quantitative approach where the research subjects are visitors to the Air Sanih swimming pool tourist attraction with the objects of service quality, destination image, and visitor satisfaction. The sampling method used is non-probability sampling and the technique used is purposive sampling with a sample size of 170 respondents. Data were collected using a questionnaire and analyzed by multiple linear regression. The results showed that (1) service quality and destination image affect visitor satisfaction at the Air Sanih swimming pool tourist attraction, (2) service quality has a positive and significant effect on visitor satisfaction at the Air Sanih swimming pool tourist attraction, and (3) destination image has a positive and significant effect on visitor satisfaction at the Air Sanih swimming pool tourist attraction. Based on these findings, the Air Sanih swimming pool tourist attraction is recommended to improve service quality through employee training which has a direct effect on visitor satisfaction. Then in terms of destination image, the manager of the Air Sanih swimming pool tourist attraction should improve the destination image by developing its potential such as forming a spiritual destination image to build a positive image.

Keywords: destination image, visitor satisfaction, service quality
