Elementary School Teacher Education Study Program

ABSTRACT

The objective of this study is to develop a digital comic learning medium based on the Si Kancil fairy tale, with the aim of enhancing the sense of responsibility among third-grade elementary school students. Additionally, this study seeks to ascertain the validity and practicality of the Si Kancil digital comic as a learning medium for enhancing the sense of responsibility among third-grade elementary school students. The present study employs the ADDIE development model, with data collection methods including observation, interviews, and questionnaires. The data analysis techniques employed in this study encompass both qualitative and quantitative methodologies. The study obtained a media validity score of 0.89 from subject matter experts, which is classified as high, and a media validity score of 0.94 from media experts, which is also classified as high. The practicality percentage as determined by teachers attained a score of 89%, which is classified as very good according to the established criteria. Similarly, the practicality percentage as determined by students achieved a score of 87%, also classified as very good. Therefore, it can be concluded that the digital comic of the Si Kancil folktale is both valid and practical as a medium for learning literacy. Furthermore, it can be posited that this medium can be used to enhance the sense of responsibility among third-grade elementary school students.
