ABSTRACT

This study aims to (1) examine and analyze the efforts of the Buleleng Resort Police in tackling motorcycle theft cases in Buleleng Regency and (2) the obstacles faced by the Buleleng Resort Police in tackling motorcycle theft cases in Buleleng Regency. The data used in this study includes primary and secondary data, which covers primary legal materials, secondary legal materials, and tertiary legal materials. Data collection was conducted through document studies, observations, and interviews. The sampling technique applied was non-probability sampling, with research subjects selected using purposive sampling. The collected data was then processed and analyzed qualitatively. The results of the study indicate that (1) The Buleleng Resort Police's efforts to combat motorcycle theft in Buleleng Regency include pre-emptive measures such as installing CCTV cameras and conducting viedotron socialization, preventive measures such as detecting certain areas, and repressive measures such as taking action against motorcycle theft. (2) The challenges faced by the Buleleng Police Department include a shortage of personnel and difficulties in obtaining evidence.
