ABSTRACT

The objectives of this research are: (1) to design a comic learning medium based on the local content of The Legend of the Balinese Tiger; (2) to analyze the validity of the comic learning medium based on the local content of The Legend of the Balinese Tiger; (3) to analyze the practicality of the comic learning medium based on the local content of The Legend of the Balinese Tiger; and (4) to analyze the effectiveness of the comic learning medium based on the local content of The Legend of the Balinese Tiger on harmonious ecosystems in improving learning outcomes of fifth-grade students at SD Negeri 6 Abiansemal. This study uses the ADDIE model, which consists of five stages, namely: (1) analysis, (2) design, (3) development, (4) implementation, and (5) evaluation. The subjects in this study were learning media experts, learning content experts, practitioners, and students. The object of this study was the science learning outcomes of fifth-grade elementary school students. The data collection methods used were observation, interviews, questionnaires, and tests. The instruments used to collect data were observation guidelines, interview guidelines, and multiple-choice tests with a total of 20 questions. The product trial involved 15 fifth-grade students of SD Negeri 6 Abiansemal. Data from the pre-test and post-test results were analyzed using a t-test with correlated samples to determine the effectiveness of the product. The results of this study indicate that the local content-based comic learning media Legend I Macan Bali that was developed is valid based on expert assessment results, practical based on practitioner assessment results and effective based on the results of the trial on students. Valid, practical, and effective local content-based comic learning media, "Legend of the First Tiger of Bali," is expected to improve science learning outcomes for fifth-grade elementary school students.
