ABSTRAK

Penelitian ini bertujuan untuk menganalisis pengaruh pemahaman akuntansi, kualitas sistem informasi akuntansi dan fungsi badan pengawas terhadap kualitas pelaporan keuangan Badan Usaha Milik Desa di Kecamatan Tabanan. Latar belakang penelitian ini diangkat dari fenomena keterlambatan dan rendahnya kualitas laporan keuangan yang berimplikasi pada rendahnya kualitas pelaporan keuangan Badan Usaha Milik Desa. Permasalahan tersebut dipengaruhi oleh keterbatasan pemahaman akuntansi pengelola, pemanfaatan sistem informasi akuntansi yang belum optimal serta lemahnya fungsi pengawasan. Kebaruan penelitian ini terletak pada integrasi ketiga variabel utama terhadap kualitas pelaporan keuangan Badan Usaha Milik Desa, yang sebelumnya masih jarang dikaji. Penelitian ini menggunakan metode kuantitatif. Data penelitian bersumber dari data primer melalui penyebaran kuisioner kepada pengelola. Populasi dari penelitian ini berjumlah 12 Badan Usaha Milik Desa di Kecamatan Tabanan. Teknik pengambilan sampel menggunakan teknik purposive sampel, sehingga diperoleh sampel sebanyak 7 Badan Usaha Milik Desa di Kecamatan Tabanan dengan jumlah responden sebanyak 42 orang pengelola Badan Usaha Milik Desa. Hasil penelitian menunjukkan bahwa pemahaman akuntansi, kualitas sistem informasi akuntansi dan fungsi badan pengawas berpengaruh positif dan signifikan terhadap kualitas pelaporan keuangan Badan Usaha Milik Desa.

ABSTRACT

This study aims to analyze the influence of accounting understanding, the quality of accounting information systems, and the function of the supervisory body on the quality of financial reporting of Village-Owned Enterprises in Tabanan District. The background of this study is the phenomenon of delays and low-quality financial reports, which have implications for the quality of Village-Owned Enterprise financial reporting. These problems are influenced by managers' limited understanding of accounting, suboptimal utilization of accounting information systems, and weak oversight functions. The novelty of this study lies in the integration of these three main variables into the quality of Village-Owned Enterprise financial reporting, a previously rarely studied study. This study used quantitative methods. The research data were sourced from primary data through questionnaires distributed to managers. The population of this study was 12 Village-Owned Enterprises in Tabanan District. The sampling technique used purposive sampling, resulting in a sample of 7 Village-Owned Enterprises in Tabanan District with 42 Village-Owned Enterprise managers as respondents. The results indicate that accounting understanding, accounting information system quality, supervisory board function have a positive and significant effect on the quality of Village-Owned Enterprise financial reporting.
