Appendix 1. 4 Interview Guide Questions

Matrix aspect	No	Questions
Experiences	1.	Have you ever used digital learning media during speaking teaching in English class? For example Duolingo, CakeApp, etc.
	2.	Have you ever heard of or used CakeApp in class, especially in English (speaking) lessons?
	3.	Do you prefer conventional learning or modern learning, such as using technology?
Implementations and results	4.	What strategies do you use in the process of teaching speaking in class?
	5.	Are you able to use digital learning media in speaking skill teaching?
Impact and challenges	6.	How can the results that Mr/s get by using digital learning media influence students' abilities in learning speaking in class?
	7.	How does Mr/s refer to students' development in learning to speak in class and communicating with students during the learning process in class?
	8.	What challenges did Mr/s face during the speaking learning process?
	9.	How do you overcome students' learning problems during speaking lessons in class?

Appendix 1. 5 Blueprint of Infographics

Topic	Learning outcomes	CakeApp content	Teaching ideas			Notes
			V - A	E - P	S - D	
General Greeting and Introduction	<p>a. Students are able to greet guests well and politely</p> <p>b. Students are able to introduce themselves to guests well.</p>	<p>- Videos of “greet the guests in the hotel”</p> <p>- Videos of “Ways to introduce yourself”</p>				
Days of the Week, Time and Date	<p>a. Students are able to recognize days and time</p>	<p>- Videos of “Expressions related to days and dates”</p>				

Alphabets and Numbers/ Money (Counting)	<p>a. Students are able to spell and tell numbers of words (counting)</p> <p>b. Students are able to count and know the certain currency</p> <p>c. Students are able to asking about prices and making simple transactions</p>	<p>- Videos of "Reading numbers"</p> <p>- Videos of "Convenience store talk"</p>	<p>- Videos of "Reading numbers"</p>

<p>Asking and Answering Basic Questions, Request, and Offering Help</p>	<p>a. Students are able to ask and answer questions related to 5W+1H</p> <p>b. Students are able to order or request something with simple sentences</p> <p>c. Students are able to offering help to the guest or the others</p>	<p>- Videos of “<i>Speak like a native 17: Helping someone</i>”</p> <p>- Videos of “<i>Easy English Listening : Requesting at a cafe</i>”</p>	
<p>Hotel Vocabulary, Amenities, and Facilities</p>	<p>a. Students are able to guess hotel vocabulary and terms of facilities and amenities</p>	<p>- Videos of “<i>My stuff is missing! S H A</i>”</p>	

Directional Check-in, Directions	Language: Facilities, Directions	b. Students are able to point out or giving and asking directions	- Videos of “ <i>Asking for directions</i> ” - Videos of “ <i>Finding and giving directions 2</i> ”				
Thanking and Farewell		a. Students are able to say thank you and farewell expression to the guests	- Videos of “ <i>Farewell</i> ” - Videos of “ <i>5 Common Ways to Say ‘Thank You’</i> ”				

Notes: In the teaching speaking ideas category, there are some terms of elements related that support the infographics such as, T-V (Tourism Vocabulary), E-P (Essential Phrases), S-D (Scenario Demonstration), L-P (Lesson Plan).

Appendix 1. 7 Infographics Refinement Sheet

Evaluation	Before Refinement	After Refinement
		

Appendix 1. 8 User's Review Sheet

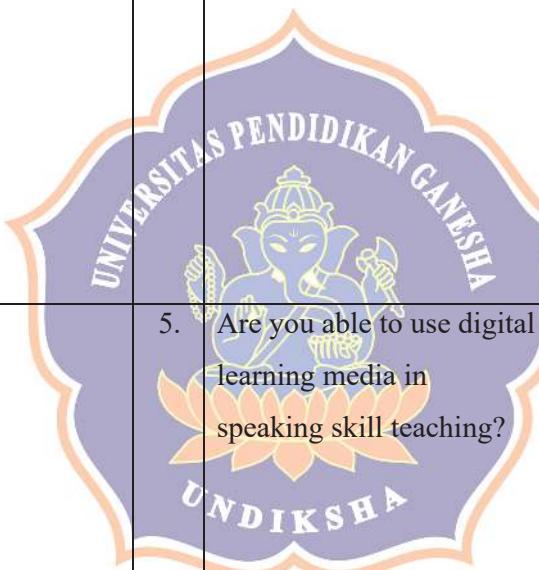

Aspect	Descriptions	Comments
Content	Comprehensive and relevant teaching ideas; aligns well with the need vocational tourism students; demonstrates effective use of the CakeApp features for speaking skills.	
Design	Visually engaging; well-organized layout; clear and readable font; effective use of images/icons that relate to the content.	
Practicality	Provides actionable steps for teachers to implement; ideas realistic and adaptable to various class sizes and levels.	

Appendix 2 Research Instruments Outcomes

Appendix 2. 1 Result of Interview

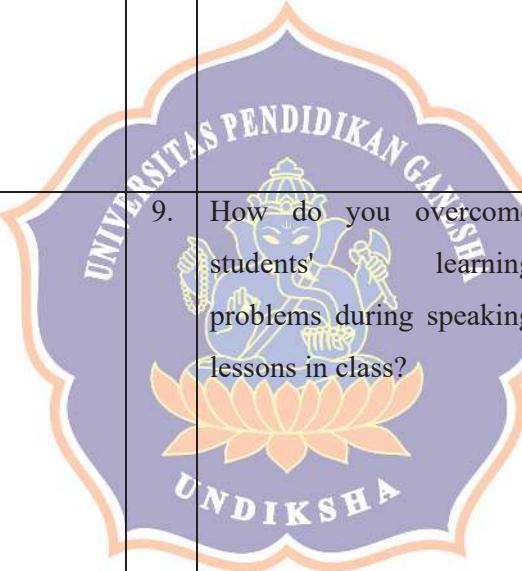

Matrix aspect	No	Questions	Teacher's Response
Experiences	1.	Have you ever used digital learning media during speaking teaching in English class? For example Duolingo, CakeApp, etc.	I typically employ a variety of digital learning media, including Quizizz, Google Forms, Google Classroom, and YouTube.
	2.	Have you ever heard of or used CakeApp in class, especially in English (speaking) lessons?	I just now learnt about CakeApp; I had never heard of it before. That said, I never use that kind of app in the classroom. Is it free? That looked interesting, but I don't know much about the material or features yet. So, then how do I used it?
	3.	Do you prefer using books or technology during the speaking learning process?	Speaking courses do not often utilise books such as KLS or Handbooks. We like to incorporate technology into the learning process.

			<p>Even difficult speaking materials may be sent over a WhatsApp group. Examples of learning content include PDF files, tasks, movies, and PowerPoint presentations. These features make it easy to give learners with excellent learning resources at any time. Students prefer using technology to study rather than reading textbooks or written materials, which may be boring.</p>
Implementations and results	4.	What strategies do you use in the process of teaching speaking in class?	<p>I honestly can't remember the name of the educational techniques. However, I generally educate students depending on the setting or subject of learning, such as the front office, food and beverage service, etc.</p>

		<p>Then, we (the teachers) assist the students by showing them recordings of how the bellboy, front office, and waiters function, as well as samples of how to use excellent language. Then, we tell students to create some groups to discuss the topic or problems, and they have to practice it (doing role-play or dialogue).</p>
	<p>5. Are you able to use digital learning media in speaking skill teaching?</p>	<p>As teachers, we must be adaptable, whether we employ technology or traditional learning methods in our courses. We normally utilize technology at the start of the class to engage our students. Of course, we must be innovative when using technology to improve learning</p>

			<p>results. Using learning media and technology might be challenging due to technical issues and limited facilities.</p>
<p>Impact and challenges</p> 	<p>6.</p>	<p>How can the results that Mr/s get by using digital learning media influence students' abilities in learning speaking in class?</p>	<p>In my view, it has the ability to help students learn English. Students prefer technology-based activities like viewing movies, playing games, and taking quizzes over traditional learning methods. Using digital learning tools with engaging features might increase students' enthusiasm.</p>
	<p>7.</p>	<p>How does Mr/s refer to students' development in learning to speak in class and communicating with students during the learning process in class?</p>	<p>Despite studying English at the tourist vocational high school, student's curiosity remains poor. They received important lessons, including hospitality,</p>

		<p>culinary, and beauty. Students may feel challenged to tackle challenges related to technology-based learning. Teachers used bonus points to provide high grades to students who received a large number of points. To improve learning performance, students should be able to communicate effectively and practice speaking skills based on teaching and coaching.</p>
	<p>8. What challenges did Mr/s face during the speaking learning process?</p>	<p>The first is that there aren't enough places to learn in the classroom. Teachers need to be able to use the resources they already have to make learning activities that work. Then, there aren't many chances</p>

			<p>or ways for students to practice speaking in class, so they have to do it more at home since the teacher can't give them homework or other printouts. Not all students pay attention to their teachers' explanations, orders, and directions during the lesson. It's not important,</p>
		<p>9. How do you overcome students' learning problems during speaking lessons in class?</p>	<p>As an example, if some students didn't get the teacher's advice or directions, the teacher might say them again. The teacher tells students about the important things that will help them. The teacher keeps them going and makes sure they know that they need to learn English for their future jobs. I always get my students</p>

		<p>involved in the learning process by letting them ask questions, give their views, and start talks. I also give them comments on how well they are doing in school.</p>

2.3.3 Calculation of Expert Judgement Result (Expert I & II)

Content Evaluation

1. Expert I

$$\begin{aligned} \text{Percentage} &= \frac{\text{Actual score}}{\text{SMI}} \times 100\% \\ &= \frac{72}{80} \times 100\% \\ &= 90\% \end{aligned}$$

2. Expert II

$$\begin{aligned} \text{Percentage} &= \frac{\text{Actual score}}{\text{SMI}} \times 100\% \\ &= \frac{73}{80} \times 100\% \\ &= 91\% \end{aligned}$$

Product Evaluation

1. Expert I

$$\begin{aligned} \text{Percentage} &= \frac{\text{Actual score}}{\text{SMI}} \times 100\% \\ &= \frac{36}{40} \times 100\% \\ &= 90\% \end{aligned}$$

2. Expert II

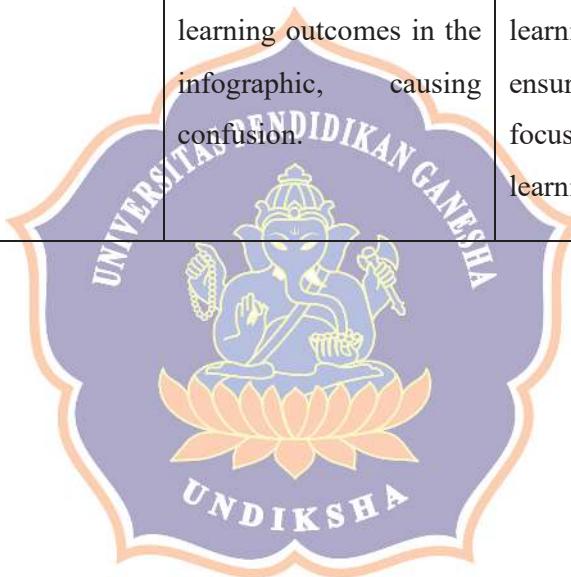

$$\begin{aligned} \text{Percentage} &= \frac{\text{Actual score}}{\text{SMI}} \times 100\% \\ &= \frac{38}{40} \times 100\% \\ &= 93\% \end{aligned}$$

Appendix 2. 4 Result of Infographics Refinement Sheet

Evaluation	Before Refinement	After Refinement
Add a QR code in the infographics.	The lack of QR codes in infographics makes it more challenging for viewers to get the information.	A functioning QR code is included within the infographic, allowing viewers to quickly access further information.
Revise lesson plans to suit the syllabus and curriculum.	The writing of the lesson plan is messy and does not conform to the format set out in the syllabus and curriculum.	The lesson plans have been revised to improve the writing and follow the correct format, making them neater and easier to understand.
Replacing existing images or elements in an infographic.	The images and elements used in the infographic are not relevant to the material presented, so they do not support understanding.	Images and elements have been replaced with more appropriate ones, increasing the relevance and understanding of the material presented.
Delete existing sub-chapters in the infographic.	The infographic uses unnecessary sub-chapters, making it look less than ideal.	Sub-chapters have been removed to make the infographic simpler and focus on the content without unnecessary divisions.
Simplifying the lesson plan in the infographic	The lesson plan presented in the infographic is too long, making it difficult to understand what should	The lesson plan has been simplified, making it more concise and in line with the infographic function for easier

	be easier.	understanding.
Pay attention to grammar, punctuation, and spelling.	There are grammar, punctuation and spelling errors that interfere with understanding.	Grammar, punctuation, and spelling errors have been corrected, improving the clarity and professionalism of the infographic.
Update the learning objectives in the lesson plan.	The learning objectives in the previous lesson plan were the same as the learning outcomes in the infographic, causing confusion.	Learning objectives have been updated to differentiate them from learning outcomes, ensuring clarity and focus on the different learning goals.

Appendix 2. 5 User's Review Sheet Result

Aspect	Descriptions	Comments
Content	Comprehensive and relevant teaching ideas; aligns well with the need vocational tourism students; demonstrates effective use of the CakeApp features for speaking skills.	The design is related to the learning objectives that can be seen from effectiveness of the features. The use of Cake app supports learning activities that relevant to student need, especially for Tourism major. The design such as lesson plans, learning outcomes, scenarios and thumbnails of Cake app are comprehend with productive skills which must be mastered by learners. Indeed, the selection of video contents suitable for the level.
Design	Visually engaging; well-organized layout; clear and readable font; effective use of images/icons that relate to the content.	Clear layout and interactive designs are pictured effectively for teachers. The use of appropriate images and several icons make the design easy to be understood. Meanwhile, there are some writing errors that the designer should pay attention.
Practicality	Provides actionable steps for teachers to implement; ideas realistic and adaptable to various class sizes and levels.	All design provides clear instructions and comprehensive guidelines for those who want to implement it in classroom. Through Cake app, it assists teachers in implementing creative and accessible learning process and encourages students' creativity.
