ACKNOWLEDGEMENT

First of all, the author expresses sincere gratitude to God Almighty, Ida Sang Hyang Widhi Wasa, for the abundant blessings, which enabled the completion of this research entitled “The Use of Drilling Techniques Integrated with Technology to Improve Students’ Vocabulary Mastery at SD Negeri 1 Sibangkaja.”

The author acknowledges that without the guidance, encouragement, and assistance of numerous individuals, this thesis would not have been completed sufficiently. Additionally, the author would like to thank everyone who has offered direction, counsel, and support. My sincere thanks and admiration are extended to:

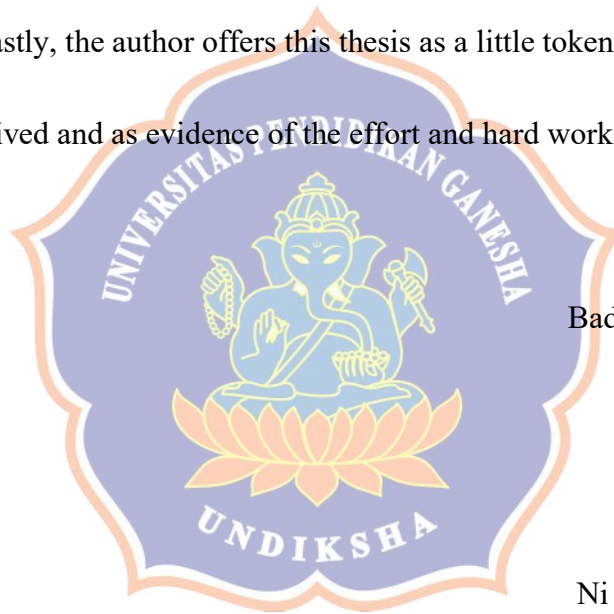

1. Dr. Kadek Sintya Dewi, S.Pd. M.Pd., as the first supervisor, has patiently offered direction, guidance, inspiration, and concern while my thesis was being prepared.

8. Most especially, to beloved parents, Bapak Made and Ibu Made, thank you for your unending love, steadfast devotion, never ending inspiration, and priceless financial and moral support. 11. To myself, Mangeni, thank you for persevering until this final point. Deep down, you must know that this has not been easy, but by reaching this point, you have proven yourself capable. Even though the path and time you have passed are not the same as those of your other friends, that's okay, because each person has their own

path, but they all have the same finish line, and you have also arrived there on your own path.

12. The author also expresses her deepest gratitude to all those who cannot be mentioned one by one, who have contributed in various ways to the completion of this thesis.

Although the author acknowledges that this thesis is far from flawless, it is hoped that this work will benefit readers and make a minor contribution to the field of education. Lastly, the author offers this thesis as a little token of appreciation for all the gifts received and as evidence of the effort and hard work put forth.
