ABSTRACT

The purpose of this study is to analyze the implementation strategy of strengthening the character values of social care and love of the homeland, identify various obstacles or barriers faced by schools and explain the form of follow-up efforts undertaken by schools in taking policies from the strategy of strengthening the character of social care and love of the homeland in class VII of SMP Laboratorium Undiksha through the subject of Pancasila Education. This study uses a qualitative descriptive method with data collection techniques through interviews, observation, and documentation. In the process of qualitative data analysis using analysis techniques according to Prof. Dr. Sugiyono through the steps of data collection, data reduction, presentation, and conclusion. The results of this study are that SMP Laboratorium already has several strategies for strengthening the character of social care and love of the homeland. The several stages of the strategy carried out by SMP Laboratorium Undiksha are the 5S Habituation Program (Smile, Greeting, Greeting, Polite, Courteous), the 4 Magic Words Habituation Program, the Healthy Friday and Meditation Program, the Language Month Program, the Co-curricular Program, the Inclusive Program and other programs. This program shows success in developing the character of social care and love of the homeland as evidenced by students being able to understand and participate in these activities well. The formal development of student character has been evaluated by homeroom teachers through mid-semester meetings. Students are expected to possess the eight graduate character profiles. However, in its implementation, obstacles have been encountered and felt by the entire school community, necessitating an evaluation of the character of social care and patriotism to improve in the future.
