PREFACE

The author would like to express her gratitude to the Almighty God for giving her the grace to complete her undergraduate thesis with the title “Accessibility Evaluation of University Websites in Indonesia Based on WCAG 2.2 Guidelines” properly and on time. This undergraduate thesis was written as one of the requirements for obtaining a bachelor's degree of computer science in the Information Systems Study Program, Department of Informatics, Faculty of Engineering and Vocational Studies, Universitas Pendidikan Ganesha.

During the research, the author encountered many obstacles, but all obstacles were overcome with the support of various parties. Therefore, the author would like to express her gratitude to:

1. Prof. Dr. Wayan Lasmawan, M.Ed., Rector of Universitas Pendidikan Ganesha, who has provided the author with the opportunity to pursue higher education in the Information Systems Study Program, Department of Informatics, Faculty of Engineering and Vocational Studies.
2. Dr. Kadek Rihendra Dantes, S.T., M.T., Dean of the Faculty of Engineering and Vocational Studies, for the support provided, which enabled the author to complete his studies as planned.
3. Ir. Putu Yudia Pratiwi, S.Pd., M.Eng., as Supervisor 1, who has given guidance and advice to the author during her research.
4. Ir. I Made Ardwi Pradnyana, S.T., M.T., as Supervisor 2, who has given guidance and advice to the author during her research.
5. Ir. I Made Dendi Maysanjaya, S.Pd., M.Eng. as Examiner 1, who has given advice to refine this research.
6. Putu Dhanu Driya, M.A. as Examiner 2, who has given advice to refine this research.
7. All the lecturers of the Information System Study Program, who have given insights and advice to the author during her study.
8. The beloved family, who always support the author during her study.
9. Friends who always provide support, both mentally and physically.
10. All parties were directly or indirectly involved in the completion of this research.

May all efforts be blessed by God. The author realizes that this research is far from perfect. Hopefully, this thesis can be useful for readers and universities in providing website accessibility.
