ABSTRAK

Tujuan penelitian ini adalah mengembangkan E-LKPD interaktif berbasis *liveworksheet* materi bola voli pada peserta didik kelas VII di SMP Negeri 7 Singaraja. Model penelitian pengembangan ini menggunakan desain ADDIE yang terdiri dari tahap analisis, desain, pengembangan, implementasi, dan evaluasi. Pengumpulan data pada penelitian ini menggunakan angket dan kuisioner. Hasil penelitian pengembangan E-LKPD ini terdiri rancang bangun produk, validasi produk dan kepraktisan produk. Hasil rancang bangun dengan membuat *storyboard layout* diantaranya petunjuk penggunaan, kegiatan pembelajaran, capaian pembelajaran, tujuan pembelajaran, materi pembelajaran (*flipbook* dan video pembelajaran), tugas atau langkah kerja, aktivitas pembelajaran, refleksi, serta uji pemahaman. Hasil validasi menunjukkan E-LKPD berbasis *liveworksheet* termasuk kategori sangat baik dengan nilai ahli isi 90%, ahli desain 82%, ahli media 95%. Hasil kepraktisan terdiri dari dua tahap yaitu kepraktisan peserta didik dan guru. Hasil kepraktisan peserta didik termasuk kategori praktis dengan hasil uji perorangan 89%, uji kelompok kecil 88%, dan uji kelompok besar 90%. Kemudian hasil kepraktisan oleh guru memperoleh 84% dengan kategori praktis. Penelitian pengembangan E-LKPD interaktif berbasis *liveworksheet* ini dinyatakan layak dan digunakan serta dapat diimplementasikan pada saat proses pembelajaran materi bola voli. Dinilai dapat menjadikan pembelajaran lebih kreatif dan inovatif, serta dapat menumbuhkan minat belajar dan memotivasi peserta didik dalam proses pembelajaran materi bola voli. Penelitian ini dapat digunakan lebih lanjut guna meningkatkan dan memaksimalkan produk yang dikembangkan agar lebih baik.

ABSTRACK

The purpose of this study was to develop interactive E-LKPDs based on LiveWorksheet for volleyball lessons for seventh-grade students at SMP Negeri 7 Singaraja. This development research employed the ADDIE model, which consists of the analysis, design, development, implementation, and evaluation stages. Data collection for this study was conducted using questionnaires and surveys. The results of this E-LKPD development study include product design, product validation, and product practicality. The design outcomes, created using a storyboard layout, include instructions for use, learning activities, learning outcomes, learning objectives, learning materials (flipbooks and instructional videos), assignments or steps, learning activities, reflections, and comprehension tests. The validation results show that the LiveWorksheet-based E-LKPD falls into the “very good” category, with scores of 90% from content experts, 82% from design experts, and 95% from media experts. The practical assessment results consist of two stages: student practical skills and teacher practical skills. The students’ practical results fell into the “practical” category, with individual test scores of 89%, small-group test scores of 88%, and large-group test scores of 90%. The teachers’ practical results scored 84% and were also classified as “practical.” This research on the development of interactive E-LKPDs based on LiveWorksheet was deemed feasible, suitable for use, and implementable during the teaching of volleyball. It is believed to make learning more creative and innovative, as well as to foster students’ interest in learning and motivate them in the process of learning volleyball. This research can be further utilized to improve and optimize the developed product.
