STATEMENT

I hereby declare that the thesis entitled **“IMPLEMENTATION OF MQTT BROKER AND GEMINI API IN AN INTERNET OF THINGS BASED INDOOR AIR POLLUTION MONITORING SYSTEM”**, along with all its contents, is entirely my own original work. I confirm that I have not engaged in any form of plagiarism or improper citation that violates established academic ethical standards. I fully understand and accept the consequences, including any sanctions that may be imposed upon me, should any violation of academic integrity be discovered in this work in the future, or if any claims arise regarding the originality of this thesis.

Declared by,

I Putu Tude Rama Prasatya

NIM 2215101038

ACKNOWLEDGEMENTS

The author would like to express sincere gratitude to Tuhan Yang Maha Esa for His blessings and grace, which have enabled the author to complete this thesis entitled **“IMPLEMENTATION OF MQTT BROKER AND GEMINI API IN AN INTERNET OF THINGS BASED INDOOR AIR POLLUTION MONITORING SYSTEM”** This thesis is submitted in partial fulfillment of the requirements for obtaining a Bachelor’s degree in Computer Science at Universitas Pendidikan Ganesha. The completion of this thesis would not have been possible without the invaluable assistance, support, and encouragement both moral and material from various parties. Therefore, on this occasion, the author would like to express sincere gratitude to the following:

1. Mr. Prof. Dr. Kadek Rihendra Dantes, S.T., M.T., as the Dean of the Faculty of Engineering and Vocational for the motivation and facilities provided that have enabled the author to complete the study.
2. Mr. Dr. Putu Hendra Suputra, S.Kom., M.Cs., as the Head of the Department of Informatics Engineering for the motivation and facilities provided that have enabled the author to complete the study
3. Mr. I Nyoman Saputra Wahyu Wijaya, S.Kom., M.Cs., as the Head of the Study Program of Computer Science for the motivation and facilities provided that have enabled the author to complete the study
4. Mr. Ir. Ketut Agus Seputra, S.ST.,M.T., as the Head of the Software Engineering Study Program as well as the First Supervisor, for providing guidance, direction, advice, and motivation to the author throughout the preparation of this thesis.
5. Mr. Kadek Yota Ernanda Aryanto, S.Kom., M.T., Ph.D., as the Second Supervisor, for the invaluable guidance, direction, advice, and motivation provided to the author throughout the preparation of this thesis.
6. Mr. I Ketut Purnamawan, S.Kom., M.Kom., as the First Examiner, for the valuable suggestions, guidance, direction, and motivation provided to the author throughout the preparation of this thesis.

7. Mrs. Dr. Ni Ketut Kertiasih, S.Si., M.Pd., as the Second Examiner, for the invaluable suggestions, guidance, direction, and motivation provided to the author throughout the preparation of this thesis.
8. Mr. Ahmad Daudsyah Imami, S.T., M.T., Ph.D, as an expert in the field of water quality who provided guidance, feedback, and validation for my thesis.
9. The author would like to express his deepest gratitude to his parents and his entire beloved family for all their prayers, encouragement, and boundless support throughout the process of completing this thesis.
10. All lecturers of the Computer Science Study Program, for their dedication in educating and imparting knowledge to the author throughout the academic journey.
11. Fellow members of Ilkom IKI 22, for their encouragement and motivation to strive together in completing our studies.
12. In particular, the author would like to express gratitude to herself for all the perseverance, dedication, and resilience shown in completing this thesis. Thank you for not giving up and for continuing to believe in your own abilities throughout this challenging journey.

The author fully realizes that this thesis is still far from perfect due to the limitations of the author's abilities. Therefore, for the improvement of this thesis, the author sincerely welcomes any constructive criticism and suggestions from various parties. The author hopes that this thesis will be beneficial and useful for all, particularly for the development of education in Bali
