ABSTRACT

The documentary film of Getting to Know the Sad Kahyangan Lempuyang Luhur Temple has the aim of disseminating information about what the Sad Kahyangan Lempuyang Luhur Temple is like. This film is packaged with a duration of 10 to 15 minutes, by describing five temples that have the status of Sad Kahyangan Temple or temples that have links to the Sad Kahyangan Lempuyang Luhur Temple. Information obtained about the Sad Kahyangan Lempuyang Luhur Temple through an interview process with two sources including Jero Bendesa in Purwaayu Traditional Village and Pemangku at Sad Kahyangan Lempuyang Luhur Temple. In the data collection process, researchers used 3 (three) ways, namely by interview, observation and literature review. The applications used for this film are Adobe Premier Pro and Audacity. In its cultivation, it is divided into several stages of film design (including collecting data about the Sad Kahyangan Lempuyang Luhur Temple, determining the concept and making a storyboard), taking pictures (including implementing storyboards), editing (processing images into a film), testing (screening) film and audience response), and the revision stage (correcting the film) if there is a lack of conformity to the film. After conducting the material expert test, it was found that the content submitted was in accordance with the truth, and could be displayed without revision. Meanwhile, the user response test states that the film shows meet the standards and get a good response.
