ABSTRACT

This study aims to (1) know the implementation of the Narcotics Law, and (2) know the obstacles and efforts in implementing rehabilitation for victims of Narcotics abuse at BNNK Buleleng. This type of research is empirical legal research, with a descriptive nature. The research location was conducted at the National Narcotics Agency of Buleleng Regency. Data collection techniques used were document study, observation and interviews. The sampling technique used is the Non Probability Sampling technique. Qualitative data processing and analysis techniques. The results showed that (1) the implementation of the Narcotics Law against victims of Narcotics abuse in the form of medical and social rehabilitation at BNNK Buleleng has been fully implemented in BNNK Buleleng, (2) The obstacles faced by BNNK Buleleng in implementing rehabilitation are a lack of understanding of the community, victims of Narcotics abuse are not fully aware and lack of human resources. While the efforts of BNNK Buleleng are outreach to the community, supervise and monitor and carry out the recruitment of human resources.
