# PREFACE

First of all, I would like to say thanks to God because of his blessing the writer could finally finish this book Entitled "English for Level A". This book is design based on the 2<sup>nd</sup> syllabus of level A semester in Indonesia. It can be used as guidance for the teacher to implement literacy based activities in teaching English for the students especially for young learners. There is a box entitled "Teacher" and "Students" in every page that provides details information of what activities that teacher and students can do. The activities are such as introducing words, related to the topics, playing, connecting the dot, coloring, singing, cutting, matching, and etc. Those activities are divided into four main areas namely Language corner, Art corner, Drama corner and Music corner. The teacher can duplicate some of the pages especially in Art Corner. The literacy activities are written in eight main units started from "community life" in unit 1 until "satellite" in unit 8. The authors of teaching resource realize that there may be weaknesses that might be found in this draft, thus constructive comments from users are most welcome
