Undergraduate Program of Accounting Study Program

Abstract

Beji Sangsit Temple in is a non-profit organization formed by members with a common goal. The research locates in Sawan Village, Buleleng Regency. The informants of this research are the followers of Beji Sangsit temple and the community. This research uses qualitative methods, with observation, interview, and documentation. The data analysis techniques are done through data reduction, data presentation, and conclusion drawing. The results of this study indicate that: Beji Sangsit temple receives incomes from non-governmental organizations, obligations from Subak members, and tourism cash subsidies. The funds of Beji Sangsit temple are allocated to the tempel ceremony, maintenance, management and construction of the temple. The financial statement of Beji Sangsit temple has not yet implemented the preparation of financial statement in accordance with PSAK 45 year 2011. The principle of transparency implemented at Beji Sangsit Temple has been carried out maximally by the followers of Beji Sangsit temple, but there are discrepancies between the results of interviewing followers and the Subak members. The principle of accountability has been carried out well by the followers at Beji Sangsit temple. The obstacles faced by the followers of Beji Sangsit temple in applying the principles of transparency and accountability in the financial management are there are some people who could not be present during the socialization of financial reporting, the format is changed, and the public take money not according to the regulations

Keywords: financial management, transparency, accountability.
