## **ABSTRAK**

Pengamatan awal dilakukan untuk mengetahui kesulitan siswa kelas 11 SMAN 1 Petang dalam belajar Bahasa Inggris, khususnya pada pembelajaran online. Tujuan dilaksanakan penelitian ini adalah untuk mengembangkan media mengajar dengan menggunakan dua kombinasi aplikasi, yakni Ms. PowerPoint dan Faststone. Penelitian ini dilaksanakan untuk mengembangkan media mengajar berbasis powerpoint dan video dan menganalisis kualitas media ajar tersebut. Penelitian ini menggunakan ADDIE model yang diperkenalkan oleh Richey and Klein untuk membantu dalam mengembangkan media mengajar. Penelitian ini menghasilkan tiga media ajar yang memiliki topik yang berbeda namun terkait dengan silabus yang diajarkan pada siswa kelas 11 SMA. Data penelitian dikumpulkan dengan menggunakan beberapa instrumen dan dianalisis secara kuantitatif dan kualitatif. Ditemukan bahwa kualitas pada media mengajar sangat baik. Siswa maupun guru memberikan respon yang positif terhadap implementasi media mengajar tersebut. Pada proses pengembangan media ajar, peneliti sudah melewati 5 tahap yang diawali dengan menganalisis kesulitan siswa dan silabus, mendesain media ajar, mengembangkan media ajar dengan bantuan para ahli, mengimplementasi media ajar pada belajar online, dan tahap evaluasi, yakni melihat respon siswa dan guru terhadap media ajar yang sudah diberikan. Kesimpulan yang didapat pada penelitian ini adalah dengan mengetahui tahapan dalam mengembangkan media ajar yang memiliki kualitas baik, guru diharapkan membuat media ajar sendiri dengan mengikuti proses-proses yang terdapat pada penelitian ini.

**Kata Kunci:** Desain, kualitas, media ajar, mengembangkan.

## **ABSTRACT**

Preliminary observation and interview were conducted to know the difficulties of 11<sup>th</sup> grade students of SMAN 1 Petang in English learning, especially in online learning. The objective of the study was to develop teaching media by using two combinations of applications, such as Ms. PowerPoint and Faststone. The study was conducted to develop teaching media based PowerPoint-video and to analyze the quality of those teaching media. The study used the ADDIE model introduced by Richey and Klein to help the study in developing the teaching media. The study resulted in three teaching media which had different topics, but they were related to the syllabus taught to 11<sup>th</sup> grade students of SMA. The data was compiled through several instruments and analyzed quantitatively and qualitatively. It was found that the quality of the teaching media was very good. Both students and teachers gave positive responses toward the implementation of the teaching media. In the process of developing the teaching media, there were 5 processes had been passed, it was begun by analyzing the students' difficulties and syllabus, designing the teaching media, developing the teaching media by involving the experts, implementing the teaching media in online learning, and evaluation, that is seeing the teacher and students' responses toward the teaching media that had been given. The implication of the study was that by knowing the steps of the development of teaching media which have very good quality, teachers are expected to make their own teaching media by following the steps existing in the study.
