Kintamani is a tourism object in the Bangli area (1),2. which has an amazing view (2) .3. In this world, many people may already know about Kintamani (3),4. because it is a tourist highlight on the Bali island which is always crowded with local and foreign tourists (4).5. Kintamani provides a very unique and amazing natural scenery (5),6. surrounded by beautiful and lively green nature (6).7. There is a place called "penelokan" in Balinese which means "place to see" (7).8. This location is the most strategic place to enjoy the natural scenery in Kintamani (8).9. From penelokan visitors can see two views at once, namely the natural scenery of mountain and lake (9).10. The Mount Batur that is seen by visitors is the second most active volcano in Bali (10).11. Mount Batur is usually used as a hiking spot for hikers who want to experience the beauty of the sunrise at an altitude of 1,717 meters above sea level (11).12. There is no need to doubt about the tourism facilities in Kintamani,13. because there are many hotels and restaurants there (12).14. The air in the Kintamani environment is very fresh with cold temperatures, which is around 21 degrees Celsius during the day(13).15. Besides that, the visitors can also enjoy a natural hot spring bath in Toya Bungkah Village,16. which is commonly called "Air Panas Batur Kintamani" (14).17. This natural hot water bath is located on the edge of Lake Batur18. which comes from a spring near Mount Batur (15).

		<p>19. So, this is not hot water (16), and 20. this hot water contains sulfur (17), 21. so the society believe that this hot water can cure common skin diseases (18).</p>

Lovina Beach is one of the most famous tourist attractions in Bali (1).2. This beach is located in Kalibukbuk Village, Singaraja, Buleleng, Bali (2).3. This beach is widely known by Balinese people4. because it has a different attraction from beaches in general.5. The main attraction of this beach is the mammalian fish, namely the dolphins.6. So, if you want to see dolphin interactions, this place is very recommended because Lovina beach is the habitat of these mammal fish.7. At this beach, dolphins can swim freely8. and will appear on the surface in the morning.9. For tourists who want to meet and see the dolphins in action, they have to go out to sea in the morning by boarding a boat.10. Many of the boats lining this beach are ready to be rented out and delivered to where dolphins usually appear.11. In addition, the most important thing is that no one may catch or trade these intelligent animals12. because the local government has protected these animals.13. Unlike most other beaches that have big waves, the waves on Lovina Beach are quite calm.14. So this beach is safe for visitors who want to swim or just play water on the beach.15. Even on this beach, visitors can also do activities such as snorkeling.16. This activity is no less interesting17. because this beach also has extraordinary underwater beauty18. Lovina Beach is also known to have various coral reefs and colorful fish that can be enjoyed and witnessed directly.19. Usually, some other beaches will offer a sunset,20. but in contrast to Lovina beach which will offer a beautiful

		<p>panoramic sunrise.</p> <ol style="list-style-type: none">21. This sunrise view will be even more amazing when you see dolphins jumping to the surface and the sun is getting ready to rise.22. Furthermore, when the sun rises, this Lovina beach will look exotic with black sand.23. Visitors who want to tan in the sunshine of Lovina beach also can,24. all it takes is to lay out a beach cloth and lie down on the beach.25. This activity will be even more exciting if you do it while reading a book and accompanied by a drink.26. It is undeniable that Lovina beach is the center of the tourism industry in the Buleleng district.27. In the Lovina beach area, there are many accommodations such as hotels, homestays, restaurants, souvenir shops, transportation, money chargers, and so on.

While on vacation, the tourists usually do not just visit places that are famous and hits recently,2. but they also want to explore tourist place that is still hidden by their beauty3. and still not many people know about it.4. If the tourists are accustomed to the natural beauty of beaches and mountains, there are times when they need to see the beauty of the garden.5. There is one tourism place that is near from my house in Singaraja6. which is a nice, unique and interesting tourist spot7. but the place is still underrated.8. The name of this tourist place is Angsoka Sunflowers Garden.9. The garden is not an ordinary garden,10. but this garden is the unique and beautiful one,11. because it has hundreds of beautiful sunflowers.12. Angsoka Sunflowers Garden is located in Singaraja, exactly on Jalan Pulau Seribu, Gang Simantri 551,13. and has been open to the public officially since September 10, 2018.14. The location is very strategic15. and easy to reach.16. Angsoka Sunflower Garden does provide a special alternative vacation destination.17. The sunflowers garden looks so beautiful, especially when the flowers start to bloom in yellow, amidst the green nature18. which makes the scenery cool and very pretty.19. In this place there are many photo spots provided to capture the moments of the holidays.20. In the center of the garden, there is also a resting place with an umbrella roof, where you can take a break while chatting with friends.21. Besides there are many interesting photo spots with beautiful sunflowers,22. tourists who visit can also learn a lot about plantation there.23. Tourists can learn about the cultivation process, learn about

		<p>different types of plants and techniques for dealing with waste, and especially cow manure.</p> <ol style="list-style-type: none">24. In fact, it does not just get a theoretical explanation,25. but tourists can start practice gardening right away.26. The Angsoka Sunflowers Garden has a very wide area.27. It is around 5 acres, so there is no limit to the number of people who enter the garden each day.28. Sunflowers there almost always bloom beautifully all year round,29. so the tourists do not need to worry to think about which season is the best for a visit.30. Only by paying an entrance ticket for IDR 5,000, tourists can enjoy the beauty of sunflowers.31. Tourists can also take as many photos as they want while learning more about the plantation.32. So, what are you waiting for?33. let's go there.

While casually continuing my previous post. I want you not to forget to be happy2. and don't forget to keep your health. 😊3. Before starting to show the next tourist destination, that definitely makes you want to go on vacation.4. Do you still remember in the previous post,5. I said that Buleleng Regency is a hidden treasure in Bali?6. Besides having many beautiful waterfalls with fresh air that soothes the body and soul,7. Buleleng is also famous for its beaches,8. which have magnificent views.9. If you don't read the title, you will guess I will write about Lovina beach.10. No, no, no for now.11. Lovina beach indeed offers a breathtaking view of dolphins dancing to the surface of the water in the morning.12. However, there is one beach that offers a view that is no less beautiful.13. No offense if this beach has a nickname of the hidden pearl beach in Buleleng.14. The hidden pearl private beach that I mean is Gili Putih Beach Sumberkima.15. This beach is located in the Sumberkima village, Gerokgak District, Buleleng.16. The place of this beach is quite far away from Denpasar.17. It is about 140 km from Ngurah Rai Airport.18. This beach has recently developed its tourism potential by the community and government.19. Therefore this beach is still rarely known by outsiders of Buleleng
----	----	---

and Bali.

20. This also makes this beach called hidden pearl in Buleleng,

21. and if there are a few visitors, this beach feels like a private beach.

22. As its name, Gili Putih is white sand in the middle of the sea.

23. The small island is called “Gili,” and the land has white sand called “Putih,” which means white.

24. So, Gili Putih is a small white island in the middle of the sea.

25. When in high tide, you can find land with an area of only 600 square meters.

26. If it is receding, the land will connect Gili Putih with Penggambetan beach about 1.5 km.

27. Because this beach is in the middle of the sea, you need to rent a boat or motorboat at the Bangsal port in Sumberkima village to go to this beach.

28. It will take 10-25 minutes by fishing boat to Gili Putih beach.

29. You have to pay about 350-400 thousand rupiahs a boat for five passengers.

30. This beach is an uninhabited place.

31. None of the trees grew in this place before being managed,

32. but now it has started to be managed,

33. and several coconut trees have been planted

34. to make this small island has a more beautiful view.

35. There is also a swing and haven for the visitors.

36. The seawater surrounds this beach as clear as crystals,

37. so besides photogenic and instagramable pictures, you can enjoy the underwater ecosystem.

38. You can join the local fisherman on this beach to go fishing.

39. You are spending your time to see the sunset from this beach also a perfect thing to do.

40. I believe you will never forget the beautiful view if you visit this beach.

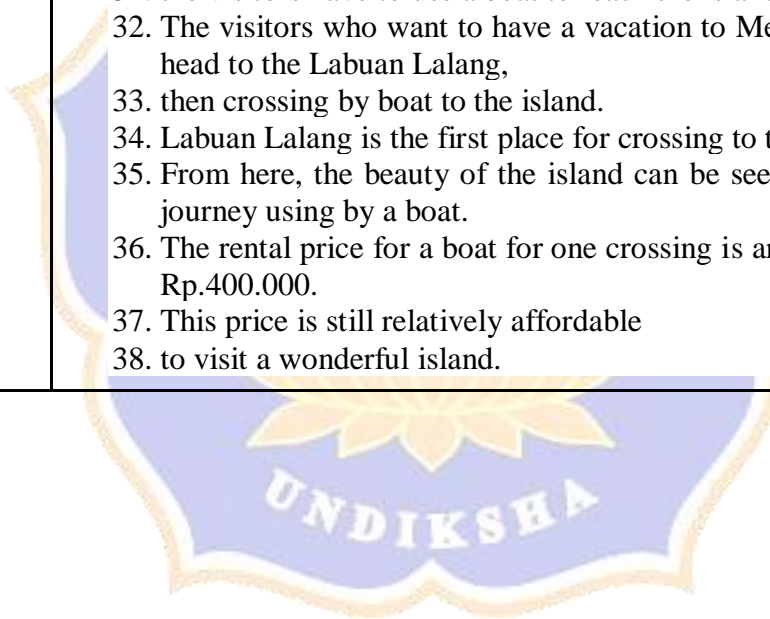

41. You could click this link [Gili Putih](#) for more snapshot about this beach by Jegeg Bagus Buleleng (Tourism Ambassador of Buleleng).

Menjangan island is a small island located in the West Bali National Park, precisely in Klampok village, Grokgak district, Buleleng regency.2. It is named Menjangan island because there are many menjangan (kind of deer) that live freely on this island.3. This uninhabited island has a total area of about 175 ha.4. Menjangan island is not inhabited by humans5. because it is quite difficult to find freshwater sources, especially during the dry season6. where the island is very hot and dry.7. Therefore, the island is only visited as a tourist spot and a place of prayer for Hindus.8. Menjangan island is popular9. because of its fantastic underwater gardens.10. Diving and snorkeling lovers will feel satisfied11. when they can see the beauty of the underwater natural paintings of this island.12. It is undeniable that the beauty of coral reefs and the underwater ecosystem of the Menjangan island area always impress the visitors13. to come to visit.14. The waters are also perfect15. because it is calm and super clean16. to discover various corals, plants, and fish, such as tuna, batfish, sea turtles, angelfish, jackfish, and many more.17. The most common fish from this area is mandarine fish18. whose color is very beautiful with the twisting movements like a dancer.19. This wonderful panorama becomes a snorkeling and diving spot20. that is not to be missed in Bali21. Besides, there are also 8 ancient sacred temples on this island.
---	----	--

		<ol style="list-style-type: none">22. It is believed that the temples are originally characterized as the restriction between the islands of Bali and Java.23. This story is related to the chronicle of Dang Hyang Siddhimantra's journey to Bali.24. Since the temple is located on an isolated island without crowds and noise,25. it makes those who want to get closer to God more solemn and calm26. In the morning, the visitors can also see the beauty of the sunrise perfectly from the island.27. Not only the beauty of the beach and temples, people are also attracted to come to Menjangan island28. because the atmosphere on the island is still relatively calm29. and there are not many tourists.30. Since the island is very small and separated from the mainland of Bali,31. the visitors have to use a boat to reach the island.32. The visitors who want to have a vacation to Menjangan island will head to the Labuan Lalang,33. then crossing by boat to the island.34. Labuan Lalang is the first place for crossing to this island.35. From here, the beauty of the island can be seen with a 30-minute journey using by a boat.36. The rental price for a boat for one crossing is around Rp.300.000 – Rp.400.000.37. This price is still relatively affordable38. to visit a wonderful island.
