Answers :

1. I think it is very attractive for the teachers to apply the Powtoon to the students in teaching learning process. As the reasons, firstly, it is very challenging for the teachers to use it. It requires the teachers' capability in mastering technology to apply in this learning media. Secondly, it is very good for the students to involve themselves in this learning media. The video the students watch will encourage their motivation to keep focusing to the learning materials given. At last, it is very enjoyable for the students to take part in this learning media. The video the students watch can entertain the students themselves. So, it can make them not to get bored very easily.
2. There are some difficulties for the teachers in teaching by using the video. Firstly, it is very hard to match the videos to be shown with the learning materials to be taught. Secondly, there are some videos that need the teachers' high capability in mastering technology. Lastly, it is very difficult to find the videos to be shown suitable with the students' cultural background. It is much easier for the students to understand the videos if they can match their cultural background.

  - a. It is more easily for the teachers to apply
  - b. It is more educated

5. I felt enjoyable when I taught learning materials by using videos. It can both educate and entertain the teachers and their students themselves very mostly.
6. I suggest finding any videos to be shown must be relevant to the students' cultural background and avoid any videos whose content is related to violence and vandalism.

(Apakah statement2 ini sudah mengikuti poin2 yang ditentukan oleh teori yang digunakan?)

Comment and Suggestion:

Adik2 yang membuat product, materi atau media harus didasarkan Lesson Plan yang digunakan untuk mengajar materi secara online (menggabungkannya dengan platform WA, misalnya). Itu berarti, ada materi/media yang digunakan untuk mendukung Pre-activity, Whilst activity, dan Post activity. Harus jelas, poin2 mana dari product yang akan digunakan sebagai pengayaan, mana untuk tujuan exercises, dan lebih baik ada poin2 untuk asesmen. 3 menit terlalu singkat (cf. productnya Lilik). yang merangkum poin2 persyaratan media/media ajar yang baik, ... apa2 saja yang harus dicoverPastikan punya landasan teori

Jadi, tidak hanya short instruction saja, ... itu bukan media namanya. Media harus berisi materi,
